CATALOGUE OF ROSES

SEASON 1932

Weeping Standard Rose.

From **S. BRUNDRETT,**
The Rose Farm. Narre Warren North, Vic.

Specially grown 2-year-old $\frac{1}{4}$ Standards for sale, 1932.

SEASON 1932

The Rose Farm,
Narre Warren North,
Victoria.

In presenting this, my 39th Annual Rose Catalogue to the public, I desire to thank my patrons for their past support, and in soliciting a continuance of their confidence and recommendations, assure them that the greatest and personal attention will be given to all orders entrusted to me.

The unique position I have obtained in the Rose world of never having been defeated for the Spring Championship by a nurseryman, and having won over 300 Medals, Trophies and First Prizes, is ample testimony to my knowledge of Rose Culture for the production of best quality plants.

My stock this season numbers over 100,000, including Weeping Standards, Standards, Three-quarter Standards, Half Standards, Dwarfs, Climbers, and Polyanthas.

S. BRUNDRETT.
A. BRUNDRETT, Manager.

TESTIMONIALS

They were an exceptionally fine lot of plants, and out of the hundred Roses in the order there was not one of inferior growth. I am very pleased with them.—E.F.C., Elsternwick.

They were a fine healthy lot of plants, and if they do as well as those we had from you last year we shall be delighted.—M.G.M., Upwey.

The plants arrived in splendid condition.—C.G., Canterbury.
The Sunny South hedge I bought from you is wonderful.—J.G., Ararat.

I must say the 600 rose plants you sent me were an excellent lot, and not one was lost or broken—surely a record.—J.P., Glen Innes, N.S.W.

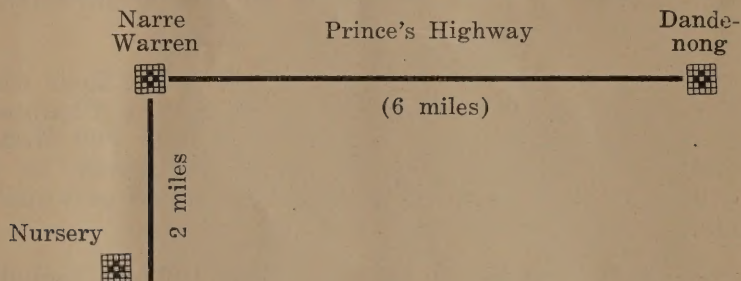

NOTICE OF REMOVAL

I wish to notify my clients that, owing to the poor pressure of water in Moonee Ponds, I have removed my Nursery to Narre Warren North, which is situated eight miles east of Dandenong, where the supply of water is unlimited and the soil is ideal for the production of young plants.

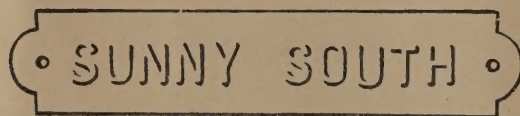

Letters posted in Melbourne and suburbs at night will be received by me at 9 a.m. the following morning, and orders can be despatched by rail or carrier the same day if desired.

A car will be sent to Narre Warren Station to meet clients if an appointment is made.

Directions for anyone wishing to visit the Nursery by car.

THE "EVERLAST" EMBOSSED ALUMINIUM LABELS

WILL LAST FOR EVER WITHOUT TARNISHING.

For Naming or Numbering Dahlias, Gladioli, Roses,
—Trees, Shrubs, and other Plants, &c.—

Can be attached to Leather Bags, Attache Cases, Portmanteaux, &c.
Any Name or Number can be Embossed and forwarded promptly
to any address.

2/- Dozen; 15/- 100 for each 16 or part of 16 letters.

NUMBERS ONLY—From 1 up to 10,000, 1/- dozen; 4/- per 50;
7/6 per 100.

The above Prices include Postage to any part of Australia.

Hints on Rose Culture

Arrival of Package.—When the package containing the trees arrives, it should be taken to a shed to be carefully unpacked. The plants should be taken from the bundle, and the roots placed in water until planted.

Soil.—The best suited for the Rose is a deep, heavy loam, with a clay subsoil, but they do very well in a light sand if well dressed with manure during the summer.

Situation and Preparation of Ground.—A place sheltered from high winds, but not near any large trees, should, if possible, be assigned to them. A south or east aspect is best, sheltered from the north and west. If good drainage does not exist, it should be provided. Pipes may be used, or a layer of broken stones or coarse ashes, 6 to 9 inches deep, may be laid in a trench that has been prepared, with a fall to the lowest end of the ground. The drain should be at least 18 inches below the surface, on a hard bottom. The ground should be trenched to a depth of 18 inches before draining.

Planting.—The time for this is end of May to the end of August. Great care should be taken to avoid deep planting; 6 or 8 inches is deep enough. In the case of Dwarf Roses, the union (that is, where the plant is budded) should not be buried below the soil. This is more important in a heavy soil. Each root should be carefully laid out, not allowed to cross each other. Cover the roots with soil, or a little coarse sand. Tread the soil firmly on roots. Water each plant with one gallon of water. Do not allow manure near the roots when planting. Prune all plants back to about four eyes about the end of July.

Manuring.—Roses require a quantity of manure, when established. Cow manure is the best, but horse manure is a good substitute. In September apply a surface dressing of three inches. If weather is dry, the ground should be well saturated with water once every week or ten days.

Insects.—The most troublesome pest is the green fly. A handful of bonedust placed round each plant early in August, and lightly forked in, and washed down to the roots with water, is the best preventive. (This should not be used unless the Roses have been planted six weeks or more.)

Mildew.—Flour of Sulphur dusted over affected parts, as soon as it makes its appearance, will keep it in check, but in bad cases it may be necessary to use Lysol—2 tablespoonfuls to 1 gallon of water—and spray under the leaves as well as on top. Lysol must not be used after 4 o'clock in the evening, as it will burn the foliage if it remains wet during the night. If used during the day it will dry quickly, and not burn the foliage.

Terms of Business

Remittance may be made by crossed cheque, when 6d. should be added to all country, and 1/- to interstate cheques; or by postal notes, post office orders, or Australian postage stamps when account is not more than 5/-.

DESPATCH OF GOODS.

Care should be taken that each order has Name and Address of the sender plainly written upon it. Orders should be written on the form supplied at the back of this Catalogue, not mixed with remarks or instructions of a letter, as this often causes mistakes.

Orders received before the lifting season will be reserved for the convenience of Customers. Orders received during the lifting season are reserved or despatched in rotation.

Small orders can be forwarded by post if preferred; large parcels will be forwarded by passenger train unless instructed otherwise.

All goods are advised the same day as forwarded and invoiced as soon as possible afterwards.

SUBSTITUTION.

When ordering, state if we may replace varieties sold out with others as good and same colour, or add extra names from which a selection can be made to replace those out of stock. This applies particularly to late orders.

PRICES.

Prices in this Catalogue do not include Postage or Railway freight.

PACKING.

THE GREATEST CARE is taken in packing Roses, and charged at the following rates:—3 to 6, 3d.; 7 to 12, 6d.; 13 to 24, 1/3; 25 to 50, 1/6; 51 to 100, 2/6.

MY ROSES WILL BE READY TO SEND OUT IN MAY.

Address all letters—

S. BRUNDRETT,

Rose Specialist,

Narre Warren North, Victoria.

Weeping Standard Roses

These roses are great favourites in England for single specimens on lawns, in shrubberies, or for centres of rose beds. The plants should not be pruned except to keep them in order, or to take out twiggy or old wood. The runner will reach the ground in one year if the plants receive plenty of water in summer months.

I can offer a good stock of these Weeping Standards in all the most suitable varieties.

There are many roses of upright habit, such as Black Boy, Miss Marion Manifold, and others, that are not suitable for Weeping Standards, but do well as ordinary Standards. The varieties I grow have a natural Weeping habit without training.

For description, see Climbers.

ROSES TRUE TO NAME

Many Hybrid Tea and Tea Roses do not come true to colour in early Spring, or on very hot days; yellow Roses will often come white, and reds turn out pinks, so a Rose should not be condemned on the first flowering.

As we grow all rose plants sent out by us, we are responsible for all being true to name. If a customer has a doubt about any variety not being true, I would esteem it a favour if they communicate with me.

New Roses of 1932

ATTRACTION, H.T. (Dickson).—The most vivid colour of its class, intense bright, unfading yellow cadmium with a shading of orange. The tips of the buds and young flowers are touched with carmine. Form, full, good, medium size, lasting. Petal somewhat short, wide, very thick, always opens well. Erect and strong habit. Blooming very free and continuous. Always effective whatever the weather. A showy bedding rose. $\frac{3}{4}$ Standard, 6/-; Dwarf, 3/6.

CLIMBING LORD CHARLEMONT, H.T. (Hurcombe).—A strong climbing sport from Lord Charlemont, identical in habit and colour, which is clear crimson, deepening to carmine crimson, sweetly scented. 3/6.

CORAL, H.T. (Dickson).—Colour bright coral with buttercup base, developing to salmon-shrimp, shaded yellow towards the base. Form bud long, pointed, shapely. Bloom: Fairly large, full ovoid. Petal moderately long, wide, good texture. Erect habit, free branching, bushy. Growth vigorous, hardy, upright. Blooming free and perpetual. Fragrance sweet. A fine novelty. Gold Medal N.R.S. $\frac{3}{4}$ Standard, 6/-; Dwarf, 3/6.

DELIGHTFUL, H.T. (McGredy).—A rose with a most appropriate name. A pure bicolor novelty of an entirely new shade, providing a soft and most vivid combination of colours. The outside of the petal is amber yellow, whilst the inner side is sparkling rose, shading to a yellow base, the colours become more brilliant as the flowers age, and the petals retain the vivid hues until they fall. The flowers are large, full, of perfect exhibition form, with beautiful reflexed petals, tea scented. The habit of growth is free and bushy; the stems are long and strong. A very distinct novelty of great charm. Certificate of Merit, N.R.S. $\frac{3}{4}$ Standard, 6/-; Dwarf, 3/6.

D. T. POULSEN (Poulsen).—Brilliant velvety crimson scarlet, with small white eye, semi-double flowers which are borne in clusters in profusion. The growth is strong and erect with dark green foliage. Tall Polyantha, 3/6.

EILEEN DOROTHEA, H.T. (Dickson).—Colour bright crimson red shaded deeper crimson at edges with pronounced yellow base, which gives an added brilliance. Form, bud long, pointed, decorative. Bloom, medium full, moderately large, spiral. Petal solid, long, reflexing. Blooming very free. Fragrance strong, rich. A highly decorative rose equally good for garden, bedding and cutting. Like most red roses with a decided yellow base, it does not blue. $\frac{3}{4}$ Standard, 6/-; Dwarf, 3/6.

E. J. LUDING, H.T. (Van Rossem).—Colour of the buds and half-open flowers coral red. Flowers beautiful satin pink with coral red and salmon shaded; they are full, well formed, and petals of great substance, carried on strong flower stalks. Gold Medal at the great Rose Show at Hague and highest award of the R.H.S., Netherlands. $\frac{3}{4}$ Standard, 6/-; Dwarf, 3/6.

LUCILE RAND, P. (Pernet Ducher).—Very vigorous growth and beautiful disease-resisting foliage. Very free and continuous

flowering. Blooms full, opening well in all weathers. Colour bright satiny carmine, delicately perfumed. A very beautiful rose of merit. Awarded Prize of Honour, Valenciennes, and Gold Medal, Saverne. $\frac{3}{4}$ Standard, 6/-; Dwarf, 3/6.

MADAME NICOLAS AUSSEL, P. (Pernet-Ducher).—Very strong growth with fine foliage. The flower is carried on erect, stiff stem. Bud is very long, salmon shaded carmine, tinted yellow at base. Sweetly perfumed. First-class Certificate, N.R.S., England; First-class Certificate for New Roses, Glent; Gold Medal, Lyons. $\frac{3}{4}$ Standard, 6/-; Dwarf, 3/6.

MOLLY DARRAGH, H.T. (McGredy).—Brilliant bright old rose, towards edge of petals gradually deepening to orange yellow, providing an entirely new combination of colours. It is not a two-colour rose only, as the colours intermingle in beautiful shadings impossible to describe. The flowers are very large, pointed, of perfect shape and form, with light tea fragrance. The growth is vigorous and upright. A garden, bedding and exhibition rose. Certificate of Merit of the N.R.S. $\frac{3}{4}$ Standard, 6/-; Dwarf, 3/6.

PORTADOWN FRAGRANCE, H.T. (McGredy).—This rose is aptly named, as the fragrance is so exceptional. We know no other variety with such a penetrating and pleasing perfume, which reminds one of a living mixture of verbenas and strong old tea scent. So powerful is the fragrance that a bunch of blooms in a bowl will fill a room with their sweet breath for many days. The flowers are very large, full, and of perfect form. The colour is brilliant orange salmon-pink, heavily flushed throughout with orange scarlet, running to an orange base. The habit of growth is vigorous. Suitable alike for garden, bedding and exhibition blooms. First-class Trial Ground Certificate of the N.R.S.; Gold Medal of the N.R.S.; Clay Cup for the best New Scented Rose. $\frac{3}{4}$ Standard, 6/-; Dwarf, 3/6.

PORTADOWN SALLY, H.T. (McGredy).—Reddish crimson carmine flushed and veined yellow, running to a yellow base. The outer sides of the petals are sulphur yellow, stained and flushed carmine. The whole colour combination glows, and has a charming appearance. The flowers, whilst not very full, are of moderate size and good shape, with high pointed centres, having a faint tea scent. The habit of growth is free, vigorous and upright. Ideal for garden and bedding. $\frac{3}{4}$ Standard, 6/-; Dwarf, 3/6.

SIR BASIL McFARLAND, H.T. (McGredy).—A new and beautiful shade unknown to us in any other rose. Colour is orange salmon pink, with a beautiful orange sheen, heavily flushed and veined yellow. The flowers are full, of moderate size and beautiful shape, with mild tea fragrance. Erect habit. We hold this rose in very high regard. $\frac{3}{4}$ Standard, 6/-; Dwarf, 3/6.

TRIGO, H.T. (A. Dickson).—Colour of appealing richness, bright Indian yellow with deep buttercup base; reverse apricot washed cerise. Bud elegant, long pointed; bloom large, spiral, always refined, and of perfect quality. Petal large, wide, deep, reflexing; stout texture. Habit ideal, free-branching, bushy. Growth vigorous. Blooming free and perpetual. Fragrance strong, sweet. A rose that must come right to the front in garden decorative and even exhibition varieties. Gold Medal, N.R.S.; Certificate of Merit, N.R.S. $\frac{3}{4}$ Standard, 6/-; Dwarf, 3/6.

New Australian Roses

I have much pleasure in offering these roses to my customers and the public. They are good decorative and garden roses. This class of rose is becoming more popular both in Europe and Australia, because of its length of stem, freedom of blooming, and robust constitution. Those who have seen the display of decorative roses staged at the National Rose Show by Mr. Alister Clark will be convinced that this class of rose has come to stay.

AMY JOHNSON, H.T. (Alister Clark).—It is a very vigorous, healthy grower, with good foliage and sweetly scented flowers of a lovely shade of pink. The large blooms are produced continuously right into winter. It can be grown as a pillar or large bush. Dwarf, 2/6.

DIVIDEND, H.T. (Alister Clark).—A lovely rich yellow rose quite distinctive, and was selected by the National Rose Society of Victoria on account of its colour and perpetual flowering habit. Every shoot carries a flower which holds its colour well, and is a fine companion to Lady Hillingdon. Dwarf, 2/6.

DORIS DOWNES, H.T. (Alister Clark).—Presented to the N.R.S. of Victoria by the raiser, Mr. Alister Clark, this strikingly beautiful flower is of a refreshing pink and deepens on the plant. It is very sweetly scented and of large size; the plant is vigorous and the foliage clean and healthy. It can be grown as a climber or as a large bush, and is especially valuable in spring time as a cut flower. In 1931 season, when so many roses were spoilt by thrips, this rose was almost as good as usual. Dwarf, 3/6.

New Roses of 1931

BABY BETTY (Burbage).—The colour in bud stage is yellow with a ruddy tint, opening to a delicate, clear rose with pale centre, which colour it retains until the end. Growth upright, vigorous, and compact, with beautiful dark-green foliage; very free flowering and fragrant. Medium Polyantha, 2/6.

BARBARA RICHARDS, H.T. (A. Dickson).—Colour: Inner face bright maize yellow, with buff reverse. The bud and young flowers are washed and flushed warm rose. Bud large, pointed; bloom of exhibition size, fine spiral form. Petals large, wide, of good substance. Foliage bright green, disease-resisting. Habit: Free branching, erect. Growth vigorous. Blooming, notwithstanding the large flower, is very free. Fragrance: Rich, aromatic scent. Award of Merit, R.H.S.; Certificate of Merit, N.R.S.; Silver Cup for the Best New Rose in Southport. Dwarf, 2/6.

BEAUTY OF NEW SOUTH WALES (Knight).—Bright crimson with white eye, the flowers are single and carried in very large sprays and continuous in blooming. Tall Polyantha, 2/6.

BRITANNIA (Burbage).—A wonderful, free-flowering single Polyantha rose, producing large branching trusses, many trusses carrying from 30 to 40 flowers. Colour rich crimson, with white centre and yellow stamens; very striking and effective. Growth vigorous and erect; foliage, bright green. Tall Polyantha, 2/6.

CHARMAINE (Burbage).—Vigorous growth, with glossy, bright green foliage. Flowers large and double; full and free blooming. Colour pink, tinged with pink salmon; when fully open is a very pleasing shade of pink. Tall Polyantha, 2/6.

CLIMBING MABEL MORSE (H.T.).—A reliable, very free blooming climber of the well-known dwarf variety. Although not so strong a grower as Climbing Golden Emblem, the brilliant golden yellow colour and beautiful exhibition form of the blooms should ensure its place as the best yellow climbing rose. It may also be treated like Climbing Belle Siebrecht as a strong-growing bush rose, making a very fine specimen. 2/6.

CLIMBING SHOT SILK (Knight).—This magnificent climbing sport from the dwarf variety is the best climber that has been introduced for many years. The colour is the same as the dwarf variety, but the flowers are much larger and the foliage is immune from mildew. Every plant so far has the true climbing habit. 2/6.

DAINTY DAWN (Knight).—Colour variable cerise pink, at times paler, while the young buds are purple in colour. It is very free flowering, and one of the best perfumed in the Polyantha class. Tall Polyantha, 2/6.

DRUSCHKI RUBRA, H.T. (Lambert).—Seedling from Frau Karl Druschki X Luise Lilia. Growth strong, bushy and upright. Foliage dark green and healthy. Immune from rust and mildew. Buds long, pointed; flower large and cupped, opening well. Colour dark blood red and maroon; very fragrant. Most free and continuous blooming. Dwarf, 2/6.

FEDERICO CASAS, P. (Dot).—Bud very large and long pointed, red. Flower very large, semi-double, open, very lasting. Colour red and yellow, borne single on long stems; foliage abundant; growth vigorous, bushy, and profuse bloomer throughout the season. Dwarf, 2/6.

GRENADIER, H.T. (A. Dickson).—Colour brilliant currant red, shaded scarlet; this intense self colour is held through all its stages, being at its brightest when fully developed. Bud long, pointed; bloom medium full and moderately large. Petal very stout, leathery, opens well. Foliage bronze-green, handsome and well furnished; disease-resisting. Growth vigorous; habit splendid; very best free-branching bedding type, erect. Very floriferous. Sweetly scented. Dwarf, 2/6.

JACQUES CARROY (Turbat).—Moderate dwarf habit, floriferous, covered with clusters of 15 to 20 flowers, form of a paeony. Fine carmine colour, slightly velvety shaded in centre; very effective; stands well in all weather. Very Dwarf Polyantha, 2/6.

JAMES RAE, H.T. (McGredy).—Rich carmine lake, but would be popularly described as rose pink. The flowers are of huge size, perfect form and substance. With exceptionally large petals; quite one of the largest and most perfect exhibition roses yet

raised. In addition, the flowers have a glorious perfume. Whilst exhibitors will demand this rose, it should not be passed over by those requiring a very free garden variety, the growth being free, bushy, and carrying the flowers upright. Though the flowers are very large, they are borne freely. Gold Medal, N.R.S. Dwarf, 2/6.

JUDITH BLACK, H.T. (Alistair Clark).—A very distinct, free-flowering, healthy rose of great colour, being very rich, dark red, flushed with crimson and sweetly scented. Dwarf, 2/6.

LADY BARNBY, H.T. (A. Dickson).—Colour bright glowing pink shaded rose Neyron-red, the shading intensifying towards base. Bud long, pointed; bloom large, medium full, beautifully built; very attractive when full open. Petal deep, wide, stout texture, impervious to wet. Foliage bright green, disease-resisting; growth robust; habit compact, free-branching and erect. Blooming very free; fragrance outstanding, true Otto of Rose. Dwarf, 2/6.

LORD ROSSMORE, H.T. (McGredy).—Creamy white, shaded and margined rose towards edge of petals. The flowers are of great size, but superb, both in symmetry and refinement. The growth is strong and upright, the foliage mildew resistant, with the added charm of delicate "tea" perfume. Either as an exhibition or garden rose this variety is an acquisition; as many as six flowers of exhibition size have been produced on one stem. Gold Medal, N.R.S. $\frac{1}{2}$ Standard, 4/-; Dwarf, 2/6.

LUCIA MARIE, H.T. (A. Dickson).—Colour buttercup yellow ground, heavily washed and veined apricot, orange, and shaded salmon cerise. A highly attractive combination of colours. Form: Bud large, deep, and pointed; bloom full, good size and form; lasting. Petal deep and wide. Foliage bronze-green; large, hard, and glossy; disease resisting. Growth vigorous, very hardy, dependable. Habit ideal, free branching; upright, long, rigid stems. Blooming profuse and continuous. Fragrance sweet. $\frac{1}{2}$ Standard, 4/-; Dwarf, 2/6.

MADAME EUGENE PICARD, P. (Gillot).—Colour beautiful golden yellow, of good size and elegant form; very sweetly scented. Growth vigorous, free branching, and very floriferous. Foliage light green, free from disease. A superb rose for decoration and massing. Dwarf, 2/6.

MADAME HENRI PATE, P. (Ducher).—Very vigorous growth, resembling that of "Ville de Paris," large glossy foliage, immune from disease; very long bud, opening well in all weathers. Colour pure golden sulphur yellow, resembling that of "Mabel Morse." Petals very large. Very floriferous. Award of Merit First Class, N.S.H., France. Dwarf, 2/6.

MADAME PIERRE S. DU PONT, H.T. (Mallerin).—Growth vigorous and erect, free branching habit; foliage clear green; immune from disease. Superb long bud, carried on fine erect stem. The petals are of good substance and perfect symmetry. Flower large, full, sweetly scented. Colour intense yellow, shaded ochre; very free and most continuous in bloom. Gold Medal Bagatelle, Paris, 1929; Gold Medal, Saverne, 1928. Dwarf, 2/6.

MADGE TAYLOR, H.T. (Alister Clark).—A very fine, large, deep cherry pink, carrying large buds, which open into full flowers of good form. The growth is strong, and flowers are produced freely. Dwarf, 2/6.

McGREDDY'S SCARLET, H.T. (McGredy).—We have never seen anything approaching this rose in colour, which is brilliant rich scarlet, so velvety that one can almost see the pile. The base is orange, and the upper portion of the petals is lightly washed deep crimson. The flowers are large, full, of perfect shape and form, with a delicate "tea" perfume. Every flower is fit for exhibition. The habit is free, vigorous, and upright, with large, mildew-proof foliage. Certificate of Merit, N.R.S. $\frac{3}{4}$ Standard, 4/-; Dwarf, 2/6.

MARCHIONESS OF LINLITHGOW, H.T. (Dobbie).—Colour deep crimson, almost black, strongly perfumed. Moderate growth, free blooming, and a good bedding sort. Dwarf, 2/6.

MRS. HAROLD BROOKES, H.T. (Alister Clark).—A lovely free-flowering semi-double, deep red rose, possessing great constitution, colour, and scent; with good foliage. Makes a large bush. Well adapted for a hedge. Dwarf, 2/6.

NIGHT, H.T. (McGredy).—This rose is so dark that we have found it impossible to reproduce in colour. It is the darkest crimson so far raised, and a general idea of this will be conveyed if we describe it as deepest blackish crimson. The flowers are of medium size, full, and of perfect form, very sweetly scented, and unaffected by the worst weather. The flowers are borne upright on strong stems. Habit of growth is very bushy and of moderate height. Extract from the National Rose Society's Annual: "An extraordinary rose; most certainly the nearest approach to a black rose we have." Certificate of Merit, N.R.S. $\frac{3}{4}$ Standard, 4/-; Dwarf, 2/6.

PRESIDENT DEVILLE, H.T. (Leenders).—A splendid new rose, with a brilliant and intense colour; cochineal red, passing to cochineal carmine. A very effective colouring. The flowers are large, full, fragrant, and beautifully formed. Growth vigorous and free branching; profuse flowering. Gold Medal, Bagatelle, Paris; Gold Medal, Saverne; Silver Medal, N.J.R.; Prize of Honour, G.R.S.; and Certificate of Merit, R.H.S. of Holland. Dwarf, 2/6.

PRESIDENT HERBERT HOOVER, H.T. (Coddington).—Bud large, long pointed; flower large, semi-double, open, very lasting, moderately fragrant (spicy), outer petals claret red flushed crimson; inner petals deep salmon flesh. As the flower opens the outer petals develop a purplish tint. Borne singly on long, strong stems. Foliage leathery, disease resistant. Growth vigorous, upright; free bloomer. Dwarf, 2/6.

ROSEATE, H.T. (Alister Clark).—The blooms are large, semi-double, and are held upright, opening well in all weathers. Colour brilliant deep pink. Climber, 2/6.

SOUTHERN CROSS, H.T. (Alister Clark).—A shapely bud opens to pink, sweetly scented bloom. Makes a good bush, with free and perpetual flowering habit, and good constitution. Especially good in Autumn. Dwarf, 2/6.

SOUVENIR DE HENRI FAASSEN, H.T. (Faassen).—The result of a cross between Betty Uprichard and Mrs. Geo. Shawyer. This excellent rose will gain a leading position. It is free flowering and beautifully formed. The blooms are carried on long, stiff stems. The colour is a striking rose, with deep orange base, sweetly perfumed. Gold Medal and Prize of Honour, Belgium. Dwarf, 2/6.

STATELY (Alister Clark).—A rose well named on account of its habit and form. The flowers are of perfect exhibition form, being very double and having a high, pointed centre. The petals are of splendid texture, and it has all the points which are essential for an exhibition rose. The colour is a pale flesh pink, the centre of the flower deepening to light salmon. "Stately" has also the virtue of being an excellent garden rose, carrying its large, perfectly-formed flowers erect on long, stiff stems. The plant has a strong constitution, and is a splendid grower. The flowers are produced very freely both in autumn and spring. Dwarf, 2/6.

WAR PAINT (Alister Clark).—Remarkable for its striking colour, free flowering habit, and strong, healthy growth. This new climbing rose is sure to be a great success. It is a brilliant, luminous pink, shaded with rouge. The flowers are large, and are produced very freely. They are also delightful for indoor decoration, the colour being very radiant under artificial light. It has a great advantage over many climbers, in that it flowers freely in the autumn. 2/6.

W. E. CHAPLIN (Chaplin).—Colour deep crimson, deepening to carmine crimson. Vigorous, erect, free branching, healthy foliage. Very free flowering and perpetual. Every bud produces a perfect flower, large and pointed; sweet scented. Dwarf, 2/6.

WILLIAM ORR, H.T. (McGredy).—Brilliant deep velvety crimson, with a delightful sheen. The outer portion of the petals are of much lighter shade. The flowers are large, full, of perfect form, with beautiful reflexed petals. The fragrance is exceptionally strong. A great advantage over the other dark crimsons is that the blooms are unaffected in colour or quality by weather. The foliage is mildew proof. Stems are long, carrying the blooms upright, the growth, habit, and freedom of flowering being outstanding. A magnificent garden bedding and exhibition variety which has our strongest recommendation. Dwarf, 2/6.

Competition at Shows

Up to the time I discontinued competing at the National Rose and other Shows I was not defeated by any Nurseryman for the Spring Championship.

I stage one of the largest exhibits at the Spring and Autumn Shows not for competition. I also won over 300 Medals, Trophies and First Prizes.

SUNNY SOUTH FOR HEDGES

This rose makes a compact and beautiful hedge, 8 ft. high, but, by pruning, can be kept down to 4 or 6 ft. It will supply a large quantity of blooms from October to July. Plant 3 ft. apart. For description, see General List of Dwarf or Bush Roses.

Price: 6 or more, 12/- per doz.

Polyantha or Miniature Roses

Many of these roses are useful for forming an edging round rose beds, planted about eighteen inches apart. They can also be used instead of Annuals, such as Phlox Drummondii, and can be had in the same colours. The plants are a mass of flowers from the end of October to the end of June.

For convenience in planting I have made an alteration in describing the growth of this class. "Tall" means suitable for single specimens; "Medium" suitable for edging and bedding, height about 18 in. to 2 ft.; "Very Dwarf" suitable for edging and bedding, height about 12 to 18 in.

Price, 1/3 each; six or more at 12/- per dozen.

ALICE AMOS (J. Spek).—Single flowers, cherry pink with white eyes, borne in large trusses. Tall.

AMAURY FONSECA (Soupert and Notting).—Pure white, suffused in autumn with light pink. Of medium size and perfect form. Unusually free flowering. Very effective. Medium.

BABY DOROTHY.—A dwarf, free-flowering rose of Dorothy Perkins pink. Blooms from spring until autumn. Very dwarf.

BORDERER (Alister Clark).—It blooms right through the season, and carries the perfume of the Wichuriana roses. The flowers are double, and are difficult to describe, but shades of pink, copper, and amber go together to make a very charming rose. Very dwarf.

CANARIENVOGEL (Webber).—Golden yellow, flaked with orange, rose, and purple; a rich combination of colour. Tall.

CECILE BRUNNER (Ducher).—Rose, yellowish in centre; very sweet. Very free growth. A gem for buttonhole bouquets. Tall.

CORAL CLUSTER (Murrell).—Rich coral pink; very pretty and distinct; a fine addition to this class. Medium.

CORONET (W. Paul).—Flowers yellow, shaded with rose. Very free and effective; very distinct. Medium.

CRIMSON ORLEANS (Laxton).—Bright crimson, sport from "Orleans Rose." Medium.

Gloria Mundi (Poly.) Remarkable for its Color

- CYRANO (F. Dubrieul).—Carmine, with bright, rosy scarlet reflexes and velvety shadings. Very full, well formed; produced in corymbs. Very free flowering. Very dwarf.
- DAINTY (Ruyter).—A sweet dainty rose, delicate pink, slightly salmon tinted, flower single cup-shape. Medium.
- DISTINCTION (Turbat).—A fixed sport from the fine variety "Joseph Guy." Rose neyron pink, passing to deep rose pink, with brighter centre. Tall.
- DOLLY VARDEN (Ruyter).—The first fully double clear pink Polyantha rose, makes a large flowering truss. Medium.
- EBLOUISSANT (Turbat).—A splendid free deep red bedder. Very dwarf.
- ELLEN POULSEN (Poulsen).—Dark brilliant pink, large, full, sweet scented. Vigorous, bushy habit, most floriferous. Very fine. Tall.
- ELSE POULSEN (Poulsen).—A charming bedding variety. Semi-double flowers. Clear rose pink. Buds slightly darker. Very fine habit. Very free and continuous flowering. Tall.
- E. N. WARD (Kershaw).—Soft, warm pink, sometimes tipped with carmine. Blooms freely at all seasons. Tall.
- ERNA TESCHENDORFF (Teschendorff).—Splendid shining crimson. The best among the red polyanthas. Medium.
- EUGENIE LAMESCH (Lambert).—Brilliant ochre yellow, turning to pale yellow, tinted rose. Very double; sweetly scented, dwarf and bushy. Tall.
- EVELYN THORNTON (Bees).—Colour shell pink, deepening to salmon and lemon, with orange shading; growth vigorous, and perpetual blooming. Tall.
- EXCELSIOR (Levavasseur).—Flowing in panicles. Colour rose Nillson washed white, with the edges of the petals cochineal carmine. Medium.
- FIREBALL (Ruyter).—A flaming-reddish orange colour. Medium.
- FLOCON DE NIEGE.—Pure white, very free, and produced in great profusion. Very dwarf.
- FRANC LEDDY (Ruyter).—Extraordinary fine carmine lake colour; very shapely flowers, of fine habit. Medium.
- GEORGE ELGER (Turbat).—Coppery golden yellow, changing to clear yellow when opening. Very free flowering. Fine for massing. Superb. Very dwarf.
- GLORIA MUNDI (Ruyter).—This is a wonderful sport from "Orleans." The colour is glowing orange; it is fully double, and borne in clusters. Received two Gold Medals and a Silver Cup as an extra prize of honour. Medium.
- GOLDEN SALMON (Ruyter).—An intense fiery golden salmon of wonderful beauty. Flowers medium to large in size, produced in large, full trusses. Syn. with Orange Perfection. Medium.

Crimson Orleans, a decided acquisition.

GOLDEN SALMON SUPERIEUR (Ruyter).—Colour almost like golden salmon, perhaps a little more yellow salmon. Will stand better in sun and rain. Medium.

HOLLANDIA.—Blood-red rosette-like flowers, in loose elegant sprays. Quite unlike any other Miniature. Medium.

IDEAL (P. v. Nes.).—Beautiful dark scarlet. Fine for bedding. Medium.

KATHERINA ZEIMET (Lambert).—Clear pure white, flowers in large clusters, and fragrant. Medium.

KERSBERGEN (Oosthoek).—This new Polyantha rose can be best described as an improved "Ideal." Medium.

KIRSTEN POULSEN (Poulsen).—Beautiful bright scarlet, with golden anthers. Trusses are carried erect on strong, stiff stems. Fine foliage. Hardy. Free and continuous flowering. Flowers keep well when cut. Tall.

LADY READING (Van Kleef).—Bright red flowers in large clusters, the individual blooms large and full, with a faint perfume. Growth vigorous and bushy, very floriferous. A true red sport of "Ellen Poulsen," especially recommended for planting with that variety. Tall.

LEONIE LAMESCH (Lambert).—Bright coppery red, shaded deep red and yellow, and a new colour in Polyantha roses. Tall.

LINETTE (Turbat).—Nice green foliage, superb bud, reddish apricot. Flowers in bouquets of six to ten, large for the genus, carmine shrimp, passing to tender rose when expanding. Tall.

LOCARNO (Ruyter).—A deep orange-scarlet sport of "Orleans." A fine bedding variety. Medium.

LOTTIE FOSTER.—Pink, full, and free. Medium.

MADAME FRANCISQUE FAVRE (Dubreuil).—Very continuous in bloom, flowering in large trusses of single flowers. Colour rich velvety crimson. Certificate of Merit. Tall.

MADAME JULES GOUCHAULT.—Buds bright vermilion red, shaded orange red, passing to fiery rose, full, well-formed flowers, produced in large erect panicles of 25 to 50 flowers. Medium.

MAGNIFIQUE (Sliedrecht).—Bright, pleasing pink, beautifully fringed double blooms carried in bold trusses. Habit erect and bushy. Excellent for bedding. Medium.

MAMAN TURBAT (Turbat).—Beautiful china rose, shaded clear peach, erect growth. Flowering in large trusses. Medium.

MARIE BRISSONET.—Clear rosy flesh, tipped carmine, producing corymbs of immense size, 75 to 100 flowers. Very dwarf.

MARIPOSA (A. J. & C. Allen).—This variety is introduced solely as an improved form of "Orange King," and the orange-red shade is deeper and more lasting than in "Orange King"; the individual blooms open easily, and it is altogether more serviceable than "Orange King." Medium.

MARY CASANT (Oosthoek).—True coral pink that does not fade. Large trusses of well-formed flowers. Medium.

Superba, the most Double Crimson Polyantha.

- MAUD E. GLADSTONE (Bees).—Malmaison pink of good size, shaded coral and suffused chrome yellow. Strong tea perfume, grand habit, lasts well when cut. Tall.
- MERVEILLE DES ROUGES.—Very bright crimson, with white centre; double, of imbricated form. Medium.
- MISS EDITH CAVELL (Meiderwyk).—Scarlet crimson sport from Orleans, possessing all the parent's qualities. Medium.
- MRS. TAFT.—Rosy crimson, superior to Madame N. Levvasasseur. Very dwarf.
- ORANGE KING, Syn. with ORANGE QUEEN (Cutbush).—Deep orange yellow. A charming and distinct new colour in this class. Flowers very small, produced freely in large trusses. Medium.
- ORANGE PERFECTION (J. Spek).—Brilliant orange-red. Gold Medal from Dutch Rose Society. Syn. with "Golden Salmon." Medium.
- ORLEANS-ROSE (Levvasasseur).—Brilliant geranium-red, suffused rose, with white centre, making a charming combination. Medium.
- PERLE D'OR (Dubrieul).—Nankeen yellow, with orange centres; small and full; very beautiful; flowers very numerous. Tall.
- PIERRE CORMIER (Turbat).—Brilliant scarlet-red flowers, with a lighter centre, produced in clusters of from 10 to 20 large full flowers. Lasts well. Medium.
- POMPON DE LYON (Dubrieul).—Big bouquets in umbels of 20 flowers. Colour, bright carmine rose. Medium.
- PRIDE OF HURST (Hicks).—A fine double sport from "Coral Clusters." An excellent addition to the polyantha class; being a lovely shade of soft pink. Medium.
- PRIMULA.—Bright china rose; centre snow white. Medium.
- PRINCE JEAN DE LUXEMBOURG (Soupert & Notting).—Pure white, full flowers. In panicles of from 100 to 150. Medium.
- RODHATTE (Poulsen).—Clear cherry red, large, semi-double. Vigorous and free-flowering. Fine for massing and cutting. Tall.
- RUFUS (A. J. & C. Allen).—Pure intense crimson, flowers double, produced in bold upright trusses. A pure self colour that does not burn. Growth free and branching. "Orleans" type. Medium.
- SALMONEA (Oosthoek).—A fine golden shrimp pink variety; very striking. Medium.
- SALMON SPRAY (Grant).—Colour, rich salmon pink, reverse of petals carmine, borne in sprays of 5 to 20 flowers, mildew proof foliage, constant blooming, and sweetly scented. Lasts 5 to 6 days in water. An ideal rose for table decoration and for massing in the garden. Tall.
- SEDUCTION (Turbat).—A lovely peach blossom pink Polyantha; large double flowers that last well; reddish green wood, with few thorns; glossy green foliage, not liable to mildew. Flowering in clusters of 50 to 60 flowers. Medium.
- SPARKLER (Ruyter).—A sparkling brilliant red. Medium.

SUNSHINE (Cutbush).—This will fill a long-felt want for a good yellow. The buds are stained with bronzy red and orange, gradually fading to pale orange and buff. It is very sweetly scented. Very dwarf.

SUPERBA (Oosthoek).—Fine, bright crimson. The most double variety in its shade. Medium.

SUZANNE TURBAT (Turbat).—Coral red, shaded bright pink. Very dwarf.

THE ALLIES.—White, suffused pale pink; a Queensland variety of great merit. Medium.

TIP TOP.—Yellow edges of petals tipped and flushed carmine; a very pretty variety. Medium.

YVONNE RABIER (Gouchault).—White, flowers of good size, borne in fine clusters. Habit perfect; fine for massing. Medium.

For Polyantha Roses of recent introduction, see New Roses for 1931 and 1932.

Climbing Polyantha Roses

1/3 each; 6 or more at 12/- per doz.

AUGUSTA KORDES (Kordes).—A fine climbing sport from the well-known dwarf polyantha, "Joseph Guy." Extra vigorous. Fine healthy foliage, hardy. Very free flowering in spring and autumn. Fiery scarlet, without shading.

CLIMBING CECILE BRUNNER (Ducher).—A splendid climbing sport from this favourite pink polyantha.

CLIMBING ORLEANS ROSE (Levavasseur).—A climbing sport from the well-known "Orleans Rose." Colour geranium red suffused rose.

DR. MITTENY.—A vigorous climbing Polyantha rose. Colour heliotrope pink, blooming in clusters from October till June.

ROBIN HOOD, Hybrid Musk (Pemberton).—Polyantha type. Bright cherry red. Blooms in large clusters. Shrub habit, very free and continuous blooming.

STEIL-RAMBLER (Leenders).—Producing large clusters of geranium-red coloured flowers. Colour resembles "Orleans Rose."

TAUSENDSCHON (Schwartz).—Pink, rosy carmine when expanded; large clusters. One of the best climbing roses.

For best effect with Polyanthas, cut off faded bloms every day or two.

STANDARD ROSES

I have been informed on reliable information that standard roses are being offered for sale on Sweetbriar Stock. These are easily obtained at a very low cost, but are worthless, and will cause loss and dissatisfaction to those purchasing them.

"Rosa Canina" is the only suitable stock.

LIST OF VARIETIES AVAILABLE AS FULL STANDARDS (36 in.).

GENERAL LIST OF DWARF OR BUSH ROSES

Price, 1/3 each; six or more at 12/- per dozen.

The descriptions are those of the raisers.

Abbreviations: T., Tea Scented; H.T., Hybrid Tea; H.P., Hybrid Perpetual; P., Pernetiana.

ADELE CROFTON, H.T. (A. Dickson).—The bud and young flower is cadmium yellow, richly overlaid with scarlet orange, this shading being more pronounced towards the edge of the petal. The back of the petal is heavily shaded vermilion red. The colour tones down as the flower develops to a rich apricot. The elegant bud, which is carried on a rigid stem, makes a delightful button-hole.

ADVOCATE, H.T. (A. Dickson).—The bud and young flower is a rich crimson-red, deeply veined and shaded darker crimson, and having a brightened zone at the base of each petal. With age the colour develops to a crimson-carmine, with the bright red base still pronounced. The bud is very long and pointed, growing into a noble full bloom built of large deep petals set in high spiral formation, quite up to exhibition standards. In growth it is thoroughly hardy, vigorous, and free. Fragrant.

AGNES BARCLAY, H.T. (Alister Clark).—A beautiful rose, of rich colouring—yellow and reddish salmon tints giving a pleasing effect to a fine bush that is large enough to form a low hedge of about three feet in height. This rose is continuously in flower, and has a well-shaped bud that carries a tea scent. Most beautiful in autumn and winter.

ALEXANDER HILL GRAY, T. (A. Dickson).—Its growth is vigorous and erect. Its lemon-yellow colour intensifies as the blooms develop. Strongly Tea perfumed. Gold Medal, N.R.S.

AMERICA, H.T. (Hill).—An American introduction of distinct merit, producing long pointed buds and perfectly formed flowers of great size and substance, with "June Rose" fragrance. Colour, beautiful shade of pink. Vigorous growth. Gold Medal, New York, 1923.

ANGELE PERNET, P. (Pernet Ducher).—Colour is very distinct. Vivid orange yellow, shaded fiery deep reddish apricot, outside of petals fiery golden yellow. Flowers are carried erect. Long, handsome buds. Large petals of fine substance. Very sweetly scented. Mildew proof. Very vigorous. Gold Medal, Bagatelle. Certificate of Merit, N.R.S.

ANNE, H.T. (Pemberton).—An exceedingly attractive and distinct cherry pink. The well-shaped flowers are full, pointed, and carried erect on compact sturdy stems. Very fragrant, damask perfume.

Gloria Mundi (Poly.) Remarkable for its Color.

ARTHUR COOK, H.T. (McGredy).—Deep velvet crimson, with a very beautiful sheen. Free flowering. Fine habit. Sweetly scented. Flowers are large, full, and pointed, and carried erect on good stems. Fine foliage. Distinctly a good rose, and unlike any other crimson variety in commerce. Highly recommended.

ASPIRANT MARCEL ROUYER, H.T. (Ducher).—Vigorous grower of erect habit; long pointed bud, very large, full flower, elegantly shell shaped; beautiful. Deep apricot, reddish apricot in centre, tinted salmon-flesh on outer petals, veined deep yellow at the base.

AUSTRALIA FELIX, H.T. (Alister Clark).—The flowers are pink, well shaped, and very sweet, and last well when cut. When massed it makes a fine bedding rose, blooming right into winter. This rose is quite distinct. Gold Medal, N.R.S., Victoria.

AUTUMN TINTS, H.T. (Cant).—Coppery red shaded with orange and salmon, medium size flowers, produced in great profusion throughout the summer and autumn; not liable to mildew.

BEDFORD CRIMSON, H.T. (Laxton).—This has won a big reputation as a very sweetly-scented, deep velvety crimson rose of first class. It is a rose with plenty of substance, and has, on an average, about 40 petals. The flowers retain their colour to the last. Free flowering; long, stiff stems; good shape; vigorous. Awarded Clay Challenge Cup for sweet scent. Certificate of Merit, N.R.S.

BELLE SIEBRECHT, H.T. (A. Dickson).—Bright rosy pink. Large, full, and beautifully formed. Free flowering and very sweetly scented.

BETTY SUTOR, H.T. (McGredy).—A great advance on the favourite "Madame A. Chatenay." The inside of the petals is pale rosy pink, heavily veined with rose, and the outside a bright rosy pink. As the flower opens there is a delightful reflexing of the petals, which enhances the beauty of the pink tones. The blooms are moderately large, and of exquisite form; they are freely produced. This rose has free and bushy habit, and strong, upright growth. The foliage is dark green, the stems are stout, holding the flowers erect. The flowers have a delicate tea perfume.

BETTY UPRICHARD, H.T. (A. Dickson).—The inner face of the petal is delicate salmon pink to carmine, while the outer or reverse petal is glowing carmine, with coppery sheen, and a suffusion of orange; a combination of colours that attract and delight. The growth is very vigorous, erect and of free branching habit. The blooms are perfumed and carried on erect flower stems, are of medium size, and perfectly formed.

BILLY BOILER, H.T. (Alister Clark).—A dazzling red rose, that makes long, upright shoots always crowned with buds. No rose could be more free in flowering, and the blooms are most effective in water, and last well. It can be used as a bush or pillar rose, and is absolutely distinct from any other rose. It has a fine constitution, and will thrive in any position.

BLACK BOY.—For description see Climbers.

Sunny South makes a Fine Hedge.

BRIARCLIFF, H.T. (Briarcliff).—This rose can best be described as a vastly improved "Columbia." It has a fine, high-pointed centre, and does not produce the bad-shaped flowers common with "Columbia." The colour is a bright, clear shade of rose pink. Very sweetly scented. Not liable to mildew. Vigorous.

BRITISH QUEEN, H.T. (McGredy).—The finest white rose in existence. For exhibition or garden decoration. Petals are large and massive, with an exquisite reflex, which runs right up to the point. Frequently in the bud stage it shows a slight flush. Sweetly fragrant. The Silver Gilt Medal, N.R.S.

BUSYBODY, H.T. (Alister Clark).—True to its name, this rose never seems to rest. No rose could be more free, as every shoot carries a shapely bud of rich orange-yellow. The bush is compact, and the flowers well held. It is at its best in autumn and into deep winter, when its colour is most striking. Free-branching habit, splendid foliage.

CALEDONIA, H.T. (Dobbie).—A splendidly formed pure white, backed up by good growth and foliage. Unlike many of this colour, the blooms are richly perfumed.

CANARY, H.T. (A. Dickson).—The bud is light golden yellow, edged lightly with cerise, but when fully opened the flowers are of bright clear canary. A most profuse and continuous bloomer with rigid stems and glossy disease-resistance foliage. Growth is very vigorous, free-branching and upright. Of good bedding habit.

CARINE, H.T. (A. Dickson).—An absolutely distinct and charming rose. Growth vigorous, flowering in great profusion. Ideal rose for all decorative work. Colour orange, carmine, blush, buff, creamy fawn, and coppery salmon.

CAROLINE TESTOUT, H.T. (Pernet Ducher).—Clear, bright rose, large and double.

CHARLES P. KILHAM, H.T. (Beckwith).—Brilliant orange orient red, suffused with glowing scarlet. When full open, the colour fades to brilliant Lincoln red. Well-shaped buds, opening to good-sized flowers of very fine shape. Bold petals of fine substance. Free flowering; tea scent; foliage not liable to mildew. Long, stiff stems carrying flowers erect.

CHAS K. DOUGLAS, H.T. (A. Dickson).—Vigorous growth. Flowers large, full and fine form with long, pointed buds, freely produced right throughout the season. Colour intense flaming scarlet, flushed bright velvety crimson. Very sweetly scented.

CHATEAU DE CLOS VOUGEOT, H.T. (Pernet Ducher).—Velvety scarlet, shaded with fiery red, changing to dark velvety crimson as the flowers expand. Handsome foliage. Good garden rose.

CHERRY, H.T. (McGredy).—Sunflower yellow on outside, on inner side bright rose, heavily veined in a deeper shade of rose. As the flowers grow the inner surface of the petals turn brilliant carmine-pink, flushed yellow. Blooms large, full, well-formed, with reflexed petals.

Dwarf Roses are sometimes called Bush.

- CILLY MICHEL**, H.T. (Felberg Leclerc).—A new rose of remarkable and beautiful colouring. Clear capusine brown-red, orange-yellow, and coral-red. Large, full, scented flowers. Free flowering.
- CLARICE GOODACRE**, H.T. (A. Dickson).—Exquisite form and unique colour; orange perfume. Its pointed blooms are three-quarter zoned biscuit-chrome on ivory white. Useful as exhibition or decorative bloom, having erect flower stalks. Gold Medal, Belfast.
- CLOVELLY**, H.T. (Hicks).—Very pretty carmine rose, shaded with salmon. Upright growth. Beautifully formed flowers of large size.
- COLONEL OSWALD FITZGERALD**, H.T. (A. Dickson).—A brilliant rose, blood-red, velvety crimson, produced on erect stems. Growth vigorous and branching. Pure Tea perfume.
- COLUMBIA**, H.T. (Hill).—A delightful shade of rose pink, which, unlike other roses, deepens as the flower ages. It is a strong growing variety, free flowering, and producing splendidly shaped flowers on rigid stems. The foliage is good and free from all disease. The blooms are exceptionally fragrant. Awarded three Gold Medals in America.
- COMTESSE DE CASTILLEJA**, P. (Chambard).—The wonderful colouring must be seen to be appreciated. Orange flame, bordered with intense vermilion, passing to golden coral as the flower opens. Handsome, long buds. Sweetly scented; very vigorous; mildew-proof.
- CONQUEROR**, H.T. (Chaplin).—Inside of petals, saffron-yellow, outside lightly flushed orange, fading to pale yellow as the flower ages. Growth strong.
- CRIMSON CHATENAY**, H.T. (Merryweather).—This is a remarkable result of a seedling from "Mad. Abel Chatenay." The name given it expresses the rose, but the colour is a beautiful bright crimson. Strongly fragrant, of the real old rose scent.
- CUBA**, P. (Pernet Ducher).—The long buds are almost scarlet. The open flowers are a very uncommon shade of orange scarlet, or lincoln red on the back of the petals, and the colour on the inside of the petals is a rich, velvety, scarlet crimson. Long buds carried on upright stems. The open flowers are large and full. Very sweetly scented; vigorous, erect habit.
- C. V. HAWORTH**, H.T. (A. Dickson).—Intense black scarlet, with rich crimson pile. The blooms are of good size, perfectly formed, and very freely produced. Deliciously fragrant. Award of Merit.
- DAILY MAIL SCENTED ROSE**, H.T. (Archer).—Deep velvety red, shaded scarlet. The full flowers are of good shape, and growth is vigorous and free. This bloom received the "Daily Mail" Cup for its delightful fragrance.
- DAINTY BESS**, H.T. (Archer).—It is a true single of wonderful charm. The colour is salmon pink, and the stamens make a unique contrast with their gold and crimson. The petals are bold, nicely shaped, with frilled edges. The flowers are carried erect in large trusses. Very sweetly scented. The habit is good and free from mildew. Gold Medal, N.R.S.; Award of Merit, R.H.S.

DAME EDITH HELEN, H.T. (A. Dickson).—The colour is pure, glowing pink, a self-colour throughout, from when the bud opens till the petals fall the shade changes hardly at all. The bloom, which is carried on a rigid, erect stem, is very large and full, of perfect spiral form, and opens well in all weathers. It possesses the true old rose scent in the very highest degree. The growth is very vigorous, of upright free branching habit. As a garden, bedding, or exhibition rose, this magnificent and distinct variety will have few equals. Gold Medal, Royal Show (Eng.); Award of Merit, R.H.S.; London Certificate of Merit, N.R.S.

DEAN HOLE, H.T. (A. Dickson).—Growth vigorous and of free branching habit, flowering freely. Blooms are large, of great substance, high centre. Colour silvery carmine, shaded salmon. Gold Medal, N.R.S.

DESMOND JOHNSTON, H.T. (McGredy).—The colour—brilliant scarlet, heavily flushed orange and claret, with deep orange base. The outside of petals is heavily veined and flushed orange, shading up to scarlet and claret. The flowers are large, full, of perfect conical shape. One of the best-shaped roses we know. The petals are large and of the heaviest texture. Tea scented. A magnificent garden and exhibition rose. Certificate of Merit, N.R.S.

DIRECTOR RUBIO, H.T. (Dot).—Very large flowers of a beautiful deep crimson-red shade, carried on stiff stems. Fine foliage. Good habit. A really good, free flowering, decorative rose.

DORINA NEAVE, H.T. (Pemberton).—The colour is a delightful silvery pink. The large, full, pointed globular flowers are carried erect on stiff stems. Suitable for garden and specimen flowers. Fine, compact growth. Fragrant.

DORIS DICKSON, P. (Dickson).—Growth vigorous and free branching. Flowers are carried upright on stiff stems of good, strong constitution and vigour. The flowers are medium sized, exquisitely formed, and very freely produced. The base colour is orange cream, but heavily veined and pencilled with deep, brilliant cherry red. Extremely fragrant. Awarded Certificate of Merit, N.R.S.

DOROTHY MOLLISON, H.T. (Alister Clark).—No rose could be more free, as every shoot carries a flower of splendid dark crimson, well held on a healthy bush.

Dr. EDWARD DEACON, H.T. (Morse).—The margin of the petals being pale shrimp pink, gradually emerging into deep salmon orange towards the base of petals, giving the flowers a wonderful appearance, each petal being reflexed. The rose is very full and of fine form, and for exhibition is par excellence, and very good for garden. The habit is upright and free.

DR. J. G. FRASER, P. (Easlea).—The colour is salmon apricot, suffused vermilion pink. The buds are long and shapely, opening to fairly full, large flowers, with very beautiful petals of a shell shape. The inner petals have a suffusion of buttercup yellow. Growth vigorous.

Mrs. Henry Winnet. A Red Rose of special merit and form.

DUCHESS OF PORTLAND, H.T. (A. Dickson).—Pale sulphur yellow, with tint of "Eau de Nil." Blooms large, full, of perfect form. Petals large, smooth, circular. For garden decoration and exhibition purposes. Gold Medal, N.R.S.

DUCHESS OF YORK, H.T. (A. Dickson).—Strong, vigorous growth, with handsome light-green foliage. Flowers large, very full, and of fine form. Colour in the young stage, deep golden yellow, with tangerine centre, deepening as the flower ages, with colour spreading from the centre and suffusing the whole flower. This is a rose of exceptional merit.

EARL BEATTY, H.T. (Paul).—Deep crimson. May be styled an improved "General McArthur." Sweetly scented.

EARL HAIG, H.T. (A. Dickson).—Deep reddish crimson, a solid colour that does not fade; flowers of immense size and substance, perfectly formed, with high centre; petals large, smooth, and massive; growth vigorous, erect, and branching; splendid habit; with rich dark green foliage. An exhibition rose of the highest order; very sweetly perfumed.

EDGAR M. BURNETT, H.T. (McGredy).—Large, full flowers, fine shape, large, flesh petals, tinted rose. A great improvement on "La France." The sweetest scented rose in existence. A grand exhibition flower. Gold Medal, N.R.S.

EDITH CLARK, H.T. (Alister Clark).—A really brilliant red rose, practically fadeless and continuously in flower. All shoots carry a flower that is well held on the compact dwarf bush. The flower, besides being a dazzler, is of beautifully imbricated form. The numerous petals being delightfully arranged. Stands fierce heat and does not burn. Gold Medal N.R.S.V.

EDITH NELLIE PERKINS, H.T. (A. Dickson).—The flowers of this rose, which are produced in the greatest profusion, are both distinct and captivating. The outside of the petal is a light Orient red, heavily shaded cerise at top, and orange at base; the inner face is salmon pink, merging into orange-salmon, with golden orange base. The blooms, which are carried on long, upright stems, are moderately full, of pretty spiral formation and sweetly scented.

E. G. HILL, H.T. (Hill).—The flower is dazzling scarlet, shading to a deeper pure red as it develops. It produces long stems naturally, and the foliage develops freely, and is of fine colour.

EMMA WRIGHT, H.T. (McGredy).—Colour pure orange without shading; an attractive bedding variety of good habit and free flowering character.

E. PEMBERTON BARNES, H.T. (Pemberton).—Colour light pink, shaded cerise. Flowers large and full, suitable for specimen blooms, and bedding, growth vigorous.

ETHEL SOMERSET, H.T. (A. Dickson).—Shrimp pink, edge of petals deep flesh coral pink; flowers large, full, perfectly finished, with high pointed centre and very deep shell-shaped petals of great substance; growth vigorous and branching; splendid habit; very fragrant. A fine rose for exhibition and bedding.

ETOILE DE HOLLAND, H.T. (Verschuren).—Bright dark red, erect growth and floriferous; very sweetly perfumed. A fine show bloom and a good garden rose.

- FANCY, H.T. (Van Rossem).**—Colour is peach, with cherry red shadings on a golden yellow ground. Glossy sea green foliage. Vigorous, with upright branches. Free flowering. Hardy.
- FANCY FREE, H.T. (Alister Clark).**—A perfect garden and semi-double decorative rose, but remarkably floriferous and healthy. Colour being a beautiful cyclamen pink, with a large, white eye.
- FELICITY, H.T. (Clarke).**—A beautiful shade of mellow pink, shaded with cerise and cream. Sweetly scented. Very vigorous and free flowering. One of the healthiest roses we have ever grown.
- FELIX LAPORTE, H.T. (Buatois).**—The darkest red of all the Hybrid Teas. Velvety blackish crimson lighted up by shades of lighter red. Very pretty buds opening to large full flowers of fine shape. Very fragrant. Vigorous, free-flowering.
- FEU. JOSEPH LOOYMANS (Looyman).**—Flower yellow with vivid apricot giving a brilliant effect in the centre; large, fairly full; buds well formed, long and pointed. Growth, strong, straight and bushy.
- FLAMINGO, H.T. (A. Dickson).**—Bud bright geranium red; developed flower glowing rosy cerise. Bud, very long pointed; bloom, medium double, beautiful spiral shape, with very high pointed centre. Fragrance very strong and sweet. Growth vigorous and perfectly hardy. Very resistant from disease. Awards: Clay Cup for best scented new rose of the year; Gold Medal, N.R.S.; Award of Merit, R.A.S.
- FLORENCE L. IZZARD, H.T. (McGredy).**—Deep pure buttercup yellow, blooms semi-double, long and pointed, of fine substance, perfect form, and delightfully scented, foliage mildew proof. Not extra large in bloom, and only moderate growth.
- FLORENCE RUSS, H.T. (Russ).**—The colour in early Spring is pink in centre shading to a pearly white at edges of petals. During Summer and Autumn the colour is saffron orange in centre, shading to white at edges of the petals. The flower is full and of perfect form, the petals being beautifully reflexed. With liberal treatment, large enough for exhibition, and a good garden rose, being of perfect habit, upright and branching. Slightly tea scented. The foliage is dark green and mildew-proof. Awarded the Gold Medal, N.R.S.V.
- FONTONELLE, H.T. (Hill).**—The colour is yellow, deepening towards the centre. A fine big rose with immense petals. Long buds of good shape. Flowers produced on long stiff stems. Good habit and foliage. Vigorous.
- FRAU KARL DRUSCHKI, H.P. (Lambert).**—Snowy white; extra fine in bud. A strong growing variety, producing flowers of exceedingly handsome appearance on the plant and cut.
- FRED. J. HARRISON, H.T. (A. Dickson).**—Of vigorous growth and free-branching habit; almost immune from mildew. The blooms, which are freely produced during the entire season, are a cardinal red colour, suffused with crimson and splashed with blackish crimson towards the edge of the petals, which are

Superba, the most Double Crimson Polyantha.

large, of great substance, and beautifully smooth. Very sweetly scented. A grand rose for exhibition and garden purposes. Awarded the Gold Medal.

GAIETY, P. (Hill).—Has no rival in "Fancy Class" and of a beauty beyond description. The expanding bud is brilliant shade of orange vermillion. As the flower develops the petals are ruffled, each row showing a different tone, from soft, old rose pink and orchid to creamy fawn at centre. It is a good grower, with the handsomest foliage in the rose family.

GENERAL GALLIENI, T. (Nobonnand).—Colour deep red, centre shaded yellow; distinct. Very free-flowering.

GENERAL McARTHUR, H.T. (Hill).—Bright scarlet, crimson blooms of nice size and shape, very freely produced, and delightfully scented.

GEORGE DAKIN, H.T. (Burbage).—Inside petals silvery pink, flushed apricot; but on the back of the petals the apricot predominates. A very fine free-flowering and upright bedding rose, with particularly handsome foliage.

GEORGE DICKSON, H.T. (A. Dickson).—Produces huge blooms quite five inches across, that give an exhibitor invariably a top-row corner bloom. The colour is velvety black scarlet crimson, with brilliant scarlet reflexed tips. Blooms open naturally. Gold Medal, N.R.S. Eight Medals at various shows.

GEORGE HOWARTH, H.T. (Bees).—A fine new bedding and decorative rose. The colour is a vivid dazzling cerise, with lemon shading at the heart. Good vigorous habit. Fine glossy foliage. Very strong briar fragrance. A really good rose.

GLADYS BENSKIN, H.T. (A. Dickson).—Back of petal salmon cerise over golden yellow, deeply yellow veined. Inside bright rosy cerise, shaded orange, with orange shaded base. Bud, large, pointed. Bloom, full, well built, pointed finish. Petals thick, large, broad. Fragrance very rich, fruity. Growth vigorous, upright; habit, very free branching. Awards: Certificate of Merit, N.R.S.

GOLDEN BUTTERFLY, H.T. (Van Rossem).—The colour of this free-flowering rose is a clear golden orange yellow, and is very striking. The buds are striped with coral red. Very strong bush habit without being too high. Certificate of Merit, R.H.S. of Holland, and Large Silver Medal.

GOLDEN DAWN, H.T. (Grant).—The buds are rich sunflower yellow, heavily flushed with deep old rose. When open the petals disclose an inner face of sunflower yellow, which tones to lemon yellow as the flower ages. The growth is vigorous, with clean distinctive foliage and a splendid branching habit, so essential to profuse and continuous blooming. Though recommended primarily as a garden rose, "Golden Dawn" is capable of producing exhibition blooms of a very high order. The average number of petals is 45, while the blooms are richly tea scented.

GOLDEN EMBLEM, P. (McGredy).—Colour cadmium yellow, buds reddish gold. Fruit scent, more satisfactory as a standard.

GOLDEN GLEAM, H.T. (Beckwith).—Colour is bright buttercup-yellow, without shading. The outer petals are flushed and streaked scarlet on the same lines as "Golden Emblem." Very

dainty and refined buds and flowers. Medium size, average number of petals being 25. Very free-flowering. Faint fruity scent. A very free and upright garden rose.

GOLDEN OPHELIA, H.T. (Cant).—A seedling from "Ophelia," possessing many of its characteristics. The flower is of fair size, and very compact, opening in perfect symmetrical form, colour golden yellow in the centre, paling slightly at the outer petals. A great acquisition for decorative purposes.

GORGEOUS, H.T. (H. Dickson).—Strong, vigorous, free-branching growth. Flowers large, full, and exquisitely formed, produced freely and continuously on erect stems. Colour deep orange yellow, flushed copper yellow and heavily veined with reddish copper. An exhibition rose of the first magnitude. Gold Medal, N.R.S.

GWEN NASH, H.T. (Alister Clark).—Strong ever-blooming bush rose, very healthy and vigorous. Large flowers of lovely shade of cyclamen pink. Large petals beautifully reflexed.

GWYNETH JONES, P. (McGredy).—The colour is unique, and hitherto unknown in roses, a brilliant carmine orange without shading, absolutely startling in its beauty, and the blooms retain their fascinating colour until they drop. The flowers are semi-double to moderately full, the average number of petals of each bloom being from fifteen to seventeen. The flowers have a faint lemon perfume. The foliage is mildew proof, and the stems are strong and free, and flowering continually.

GWYNNE CARR, H.T. (A. Dickson).—The growth is very vigorous and erect, with free-branching habit. The buds are long and pointed, opening into a full, perfectly-formed bloom; the petals are large, smooth, and of great substance, opening well in all weathers. Colour, shell pink to pale lilac rose, increasing in centre to a deeper rose. Delightful fragrance. Awarded Certificate of Merit, N.R.S.

HADLEY, H.T. (Waban Conservatories).—A rich crimson red, with velvety texture, lovely form, and sweetly scented. Growth vigorous and free-flowering.

HAWLMARK CRIMSON, H.T. (A. Dickson).—Beautiful rose, whose pointed bud colouring are intense crimson crayonings and veinations, becoming crimson-scarlet as the semi-double blooms develop. Tea perfumed; vigorous branching growth.

HELEN FOX, H.T. (Buatois).—A magnificent shade of golden yellow that lasts well. The buds are of fine shape, and of Indian yellow colour, shaded coppery red. Vigorous, very free-flowering.

HENRIETTA, H.T. (Merryweather).—Flowers erect and borne on long stems; buds long and chaste. Colour fiery orange-crimson, developing as the flower expands to a soft coral salmon, beautifully shaded at the base with glowing orange. Exquisite shape, delightfully fragrant, good grower.

HOOSIER BEAUTY, H.T. (Dorner).—Glowing crimson with darker shadings. Large, full, beautifully-formed flowers, carried on stiff, erect stems. Strong, vigorous, branching growth.

Dwarf Roses are sometimes called Bush.

HUGH DICKSON, H.P. (H. Dickson).—Colour brilliant crimson, shaded scarlet; good size, fine form; petals smooth, slightly reflexed; free flowering. Highly perfumed. Gold Medal, N.R.S.

HUGO ROLLER, T. (Paul).—Rich lemon yellow, petals edged and suffused crimson. Flowers medium size, of good shape, and freely produced.

H. V. MACHIN, H.T. (A. Dickson).—Dazzling rose of gigantic size. One of the best exhibition roses, combining size, form, and colour. Intensely black grained, scarlet crimson blooms, are carried on rigid flower stalks. Faintly Tea perfumed. Gold Medal, N.R.S.

IMPERIAL POTENTATE, H.T. (Clarke).—Bud and flower large, with high centre; lasts well; long stems; very fragrant; colour dark rose pink; very free.

INDEPENDENCE DAY, H.T. (Bees).—Vigorous growth and glossy, mildew-proof foliage; most free and continuous in bloom; buds olive shaped, developing into well-modelled flowers, with flame-coloured stains; petals of sunflower gold, overlaying orange-apricot. Delightful fragrance. Gold Medal, N.R.S.

IRISH ELEGANCE, Single, H.T. (A. Dickson).—Bud bronzy, orange scarlet, whilst expanding assumes varied apricot hues; vigorous and erect growth.

IRISH FIREFLAME, Single (A. Dickson).—Deep maddery orange, splashed with crimson, which as the bud develops becomes fiery orange-crimson, changing to solid, delicate orange; strongly Tea Persian perfumed. Vigorous. Gold Medal, N.R.S.

IRISH SWEETNESS, H.T. (McGredy).—A delightfully fragrant variety. Colour, an exquisite shade of crimson lake, suffused with scarlet, and very free flowering.

ISOBEL, Single, H.T. (McGredy).—Colour, carmine-red, flushed orange-scarlet; centre of the flower pure yellow zone. Sweetly scented. Gold Medal, N.R.S.

IVY MAY, H.T. (Beckwith).—Pretty rose pink running to amber at the base of the petals, flushed with gold on the outside of the petals and at the edges. Long buds opening to well-shaped flowers. Very free flowering. Very sweetly scented. Upright and strong growth.

I. ZINGARI, Hybrid Lutea (Pemberton).—A remarkable bit of colour. Orange and scarlet; resembling the well-known colours of the famous I. Zingari Cricket Club. Quite distinct and a new break in colour. Semi-double. Claret corona. Sweetly scented. Flowers produced in corymbs. A fine decorative garden rose.

JAMES GIBSON, H.T. (McGredy).—A glowing crimson-scarlet rose, with velvety sheen. Flowers are large, full, and well-formed, opening well in all weathers.

JAMES WALLEY (Easlea).—The buds unfold to a rich apricot and fiery salmon, open flowers blush, centre richly suffused apricot.

J. C. THORNTON, H.T. (Bees).—Intensely brilliant ruby-scarlet colour. The flower is large, full, with petals of great substance. Handsome mildew-proof foliage.

JOANNA HILL, H.T. (Hill).—A new clear yellow rose, with deeper heart that is distinct. Fine foliage, free flowering, good habit.

JOHN C. M. MENSING, H.T. (Eveleens).—A distinct sport from "Ophelia," being a deep, bright rose; habit and other characteristics as the parent. Award two first-class certificates.

JONKHEER J. L. MOCK, H.T. (Leender).—Growth vigorous. Blooms, which are produced with the greatest freedom, are carried on erect stems; large, perfect form; highly perfumed. Colour carmine, changing to imperial pink. Gold Medal.

JOSEPH HILL, H.T. (Pernet Ducher).—Pink, salmon shaded; outside of petals pink copper. Blooms large and of perfect form.

J. OTTO THILOW, H.T. (Verschuren).—A rich, glowing rose pink, of exceptional merit, with long, pointed buds of perfect formation. As the flowers expand the petals reflex, forming a beautiful large double-centred flower. It is a strong grower and a continuous, profuse bloomer. A grand rose in every respect.

JOYCE FAIREY, H.T. (Alister Clark).—For description, see Climbers.

JULES GAUJARD, P. (Pernet-Ducher).—Dazzling carthame red, shaded carmine. The colour is retained to the end, and produces a magnificent effect against the brilliant green foliage. Vigorous, healthy.

JULIA, COUNTESS OF DARTREY, H.T. (Hall).—The colour is pure "Tyrian Rose" with yellow base, and is very distinct. The flowers are very large, full and of ideal shape, and fine for exhibition—in fact one of the most perfect flowers as regards size and quality we know. The flowers have a very strong and delightful fragrance. Gold Medal, N.R.S.

JULIE STRAHL, H.T. (Leenders).—A charming seedling from "Gorgeous," Capucine red on a golden yellow ground, toning to golden yellow. Large full flowers, carried erect on long stems, free flowering, very sweetly scented. Fine foliage, good habit.

JULIEN POTIN, P. (Pernet-Ducher).—It is unquestionably the most gorgeous and brilliant yellow rose yet introduced—a rich golden yellow that grows deeper and more intense as the flowers mature. The buds are long and shapely, and develop into large, full flowers of beautiful form. Delightfully sweet scented, growth upright, very floriferous.

JUNE BOYD, H.T. (McGredy).—The colour in the new flower is salmon carmine with a yellow base, the outside of petals being heavily flushed amber and yellow. As the flowers age the colour softens to a beautiful bright peach blossom, a most delightful combination. The growth is strong and free, and the flowers, which are large and full, are carried upright on good long stems. Foliage mildew proof.

KAISERIN AUGUSTA VICTORIA, H.T. (Lambert).—A vigorous grower and very free flowering, producing flowers on long stems. Colour is pure white, with tinge of yellow in centre. Flowers are large.

K. OF K., H.T. (A. Dickson).—A dazzling semi-single rose of intensest scarlet. Its huge petals are solid scarlet throughout. Growth is vigorous and branching. Blooms produced in great profusion, and deliciously perfumed. Gold Medal, N.R.S.

J. Otto. Thilow, a reliable Pink Rose, good form and growth.

LADY ASHTOWN, H.T. (A. Dickson).—Satiny buds, and blooms of deep shining pink, with a yellow glow at base of petals, high centre, double, and quite fragrant. A strong free-flowering variety, very suitable for garden and exhibition purposes.

LADY BATTERSEA, H.T. (Paul).—Growth vigorous and floriferous, buds long and pointed. Colour, cherry crimson, with orange shade.

LADY FAIRBAIRN, H.T. (Alister Clark).—No rose could be more free, robust, healthy, perpetual, and charming. The colour is a beautiful lively pink, and the flower is well formed and held on stiff, upright stems. It lasts well when cut, and is quite distinct. The foliage is ample and healthy, the bush is compact, and the habit is ideal for bedding.

LADY FLORENCE STRONGE, H.T. (McGredy).—The colour is reddish prawn to violet old rose, shaded at base of petals with yellow and towards edge to pink, the inner surface of petals being heavily veined and slightly flushed scarlet. The flowers are large and full, of perfect shape, with high pointed centres. The foliage can be regarded as mildew proof. Growth is free and bushy, and the flowers are carried upright on stiff stems. Faint Tea scent. Certificate of Merit, N.R.S.

LADY FORTEVIOT, P. (Cant).—Golden yellow, deepening to rich ruddy apricot; large flowers with big petals of fine form; growth is strong, with fine mildew-proof foliage; exceedingly sweet fruity fragrance.

LADY GREENALL, H.T. (A. Dickson).—Colour intense saffron orange, heavily zoned and overspread on deep creamy white: the reflex of each petal is faintly suffused with delicate coppery shell pink. Strongly Tea perfumed. Specially grand for exhibition.

LADY HELEN MAGLONA, H.T. (A. Dickson).—A rose of superb quality with old rose perfume. It was awarded "The Clay Cup" for fragrance. The bud and young flower are bright crimson red with blackish markings; this colour lightens with age to a scarlet red. Vigorous growth and free branching habit, producing large, full flowers having great depth of petal, a perfectly shaped bloom of highest exhibition standard.

LADY HILLINGDON, T. (Shawyer).—Orange yellow, long buds, very pretty and distinct. The best yellow bud roses grown.

LADY INCHIKUIN, H.T. (A. Dickson).—It is best described as orange cerise, so novel that wherever exhibited it has been the centre of attraction. It is of vigorous growth, branching habit, and free flowering; the blooms are large, full, perfect in shape, and delicately perfumed. Valuable alike for exhibition as well as decorative or garden purposes. Gold Medal, N.R.S.

LADY LESLIE, H.T. (McGredy).—The colour is rosy scarlet in the early stages, developing into scarlet carmine, suffused with saffron yellow on a yellow base. The blooms are beautifully formed, generally of average size, but occasionally large enough for exhibition. Habit is free and upright. Foliage is mildew-proof. The stems are strong, bearing the blooms upright. Fragrant. Certificate of Merit of the N.R.S.

LADY MARGARET STEWART, H.T. (A. Dickson).—In the young stage the flower is deep sunflower-yellow, heavily veined and splashed with orange scarlet. The reverse of the petals being

deeply marked with carmine, as the bloom develops these shades intermingle. The bud is long and pointed, opening to a very full flower of pleasing and decorative form. It grows vigorously, being of upright bushy habit. Free from mildew. Sweetly perfumed. Certificate of Merit, N.R.S.; Award of Merit, Southport; Award of Merit, Royal Show.

LADY MARY ELIZABETH, H.T. (A. Dickson).—It is vigorous and hardy, the free, branching, upright growth ensures a wealth of bloom. Its glorious flowers are carried on long stiff stems. The fragrant blooms are of beautiful spiral shape, the long pointed buds opening to blooms of moderate fullness. The bud is brilliant carmine pink without shading.

LADY MAUREEN STEWART, H.T. (A. Dickson).—A gloriously finished rose, with velvety black-scarlet; shell-shaped petals, whose reflex is solid pure orangey maroon. An excellent bloom, ideal shape, brilliant colour; musk rose odour. Erect growth and flower stalk.

LADY ROBERTS, T. (Cant).—Buds rich salmon red; open flowers orange salmon, passing to apricot. Gold medal, N.R.S.

LADY SOMERS, H.T. (Alister Clark).—A clear flesh pink rose of good form and habit, every shoot bearing flowers that charm everyone that has seen it; should be planted in groups; a particularly fine cut flower of great refinement.

LADY SYLVIA, H.T. (Stevens).—This charming novelty is a sport from the well-known "Madame Butterfly." It resembles its parent in all but colour, which is superior, as all the shades are intensified and are more lively.

LADY WORTHINGTON EVANS, H.T. (A. Dickson).—It supersedes "Red Letter Day," "K. of K.," and "Hawthorn Crimson," which we have had the privilege of introducing. The colour is glowing blackish crimson; the petals are of great substance. The foliage is disease-resistant. The bud and young flower are gloriously formed, spiral shaped, culminating in a fine pointed centre as the bloom develops. The scent is strong wild rose. Of robust constitution, the stiff stems displaying its blooms to best advantage. Award of Merit, R.H.S.; Award of Merit, Royal Show.

LA FRANCE, H.T. (Guillot).—Pale peace, reverse deep rose. Large, full, and globular. Sweetly scented.

LA MARECHALE PETAIN, H.T. (Sauvageot).—Brilliant carmine cochineal red that holds wonderfully well until the last. The large flowers are carried erect on strong stems. Very vigorous and free-flowering. Fine foliage, strongly scented.

LI BURES, P. (Dot).—The ground colour is a charming rose pink, and is flushed with scarlet and gold, with a golden heart. Sweetly scented. Very vigorous growth. Large, handsome, healthy foliage.

LAURENT CARLE, H.T. (Pernet Ducher).—Brilliant velvety carmine; large, of perfect form, opening freely. Growth vigorous.

LILIAN MOORE, H.T. (H. Dickson).—Colour deep pure Indian yellow, with slightly deeper centre. Flowers large and very full, of perfect Camellia shape, buds long and pointed, opening freely. Growth vigorous.

Superba, the most Double Crimson Polyantha.

LORD CASTLEREAGH, H.T. (A. Dickson).—The colour is rich, deep crimson. It is probably the darkest rose in cultivation, and yet, on account of the sheen on the petals, the effect is decidedly bright and enchanting. The habit is bushy and upright. The buds, which are carried on erect stems, are long and shapely, developing into semi-double blooms of pleasing form, and has a very sweet fragrance.

LORD CHARLEMONT, H.T. (McGredy).—Free growing, perfectly shaped, long, pointed flowers of clear crimson, deepening to carmine crimson; large, full flowers. A good garden rose for massing and cutting, and well up to exhibition standard; sweetly scented.

LORD LAMBOURNE, H.P. (McGredy).—The colour is a deep, absolutely unfading, buttercup yellow, each petal being heavily margined all round carmine scarlet. The flowers are of beautiful shape, enormous size. The scarlet edges give the flowers, when fully open, a wonderful appearance. The foliage is mildew proof. The habit of growth is free, strong, and upright. Exhibition and garden rose. The flowers have a strong, fruity scent. Award of Merit., R.H.S.; Certificate of Merit, N.R.S.

LORRAINE LEE (Alister Clark).—Dwarf everblooming, descended from *Rosa Gigantea*, which carries all the qualities of its parents, with a colour something like that of "M^{me}. E. Herriot," and length of petal that bears comparison with anything seen in any other part of the world. It is quite the best of Mr. Clark's seedlings.

LOS ANGELES, H.T. (Howard & Smith).—The colour is a luminous salmon-pink shaded with translucent gold; sweetly perfumed, and is a strong grower, having healthy foliage. The flowers are borne on long, strong stems, and are very large and perfectly formed.

LYON ROSE, H.T. (Pernet Ducher).—Shrimp pink at end of petals, centre coral red or salmon, shaded chrome yellow. Flowers large, full, and perfectly formed; petals of great substance; very fragrant. Ideal variety for exhibition or garden purposes.

MABEL LYNAS, P. (McGredy).—The colour is dark crimson with a yellow base. The flowers have probably the strongest and sweetest scent of any rose in cultivation. The flowers are large, full and of fine form. The habit is vigorous and upright. Gold Medal, N.R.S.

MABEL MORSE, H.T. (McGredy).—Free habit of growth; large, full, well-formed flowers, continuously produced; colour, clear, bright, golden yellow without shading; free from mildew and sweetly scented. Gold Medal, N.R.S.

MADAME A. CHATENAY, H.T. (Pernet Ducher).—Carmine pink, shaded vermilion and salmon. Perpetual and free flowering.

MADAME BUTTERFLY, H.T. (Hill).—Flesh tinted with pink, apricot and gold; well formed, very free and pretty.

MADAME EDOUARD HERRIOT, P. (Pernet Ducher).—Coral red, shaded with yellow and bright rosy scarlet, passing to prawn red, but coral red shaded with yellow on the base. Flower of medium size, semi-double, green bronzed foliage. Growth vigorous, of spreading branching habit, with many long thorns. This rose won "The Daily Mail" prize of £1,000.

MADAME GUSTAVE SOUPERT, H.T. (Soupert & Notting).—Flower, dark rose carmine, with vivid centre, reverse of petals glowing silvery carmine, the latter colour being richer and more pronounced at the base. Flowers large, full, and fragrant. Growth vigorous. Exceptionally free flowering.

MADAME HENRI LUSTRE, H.T. (Buatois).—Vigorous growth and erect branching habit, very floriferous, beautiful long bud, flower very large, full, opening well; colour, dark scarlet to red.

MADAME HENRI QUEUILLE, P. (Pernet-Ducher).—The chief colour is a vivid shrimp pink, much deeper at the heart, shaded with fiery copper suffused gold on the back of the petals. Sweetly scented. Very vigorous, fine habit.

MADAME JULES BOUCHE, H.T. (Crobier).—Vigorous and free flowering habit. Colour white, centre shaded pink; flowers large, full, and perfectly formed.

MADAME LA GENERAL ARDOUIN, H.T. (Chambard).—Splendid egg-shaped bud, flower extra large, of beautiful form, opening well. Dark carmine, shaded dark yellow and chrome. Delightful perfume.

MADAME SEGOND WEBER, H.T. (Soupert & Notting).—Rosy salmon. The blooms are enormous, form absolutely perfect, possessing splendid habit of growth.

MAMAN COCHET, T. (Cochet).—Flesh-coloured rose, shaded with carmine and salmon yellow. Large and full; fine long buds. A splendid rose. Should be included in every collection.

MARCIA STANHOPE, H.T. (Lilley).—A very fine pure white rose, with a delightful perfume. Flowers of good form and texture, produced with freedom. Growth strong and healthy.

MARGARET ANNE BAXTER, H.T. (Smith).—This new white rose has been very favourably noted. The form is perfect in all stages. Strong petals, sweetly scented. Freely produced on graceful, strong stems. Very fine foliage and very few thorns.

MARGARET DICKSON HAMILL, H.T. (A. Dickson).—Delicate maize-straw colour, deep shell-like petals, edge flushed with most delicate carmine on back of petals. Vigorous, erect; deliciously fragrant. Exhibition or decoration. Gold Medal, N.R.S.

MARGARET MCGREDY, H.T. (McGredy).—The true colour is "Geranium Lake," but would convey, to the average mind, an impression of the colour if described as orange scarlet. The colour lasts and does not fade even when the flowers are open. The flowers have a faint fragrance, and are large, full, of perfect form, with large petals. They are the largest exhibition size. The foliage is mildew proof. Stems are strong and stiff and flowers upright. Gold Medal, N.R.S.

MARGUERITE CHAMBARD, H.T. (Chambard).—The colour is geranium red, shaded with vermillion, and is quite distinct, and lasts until the petals drop. Growth vigorous, sweetly scented. Very free-flowering.

Mrs. Henry Winnet. A Red Rose of special merit and form.

MARI DOT, P. (Dot).—Growth moderate with glossy green foliage. Flowers large, full, egg shaped, opening well in all weathers. Delightful fragrance. Colour crushed strawberry shading to pale lilac rose.

MARION CRAN, H.T. (McGredy).—In the young stage the colour is deep buttercup yellow, margined and flushed cerise and rosy scarlet. As the flower opens the outside petals retain their colour whilst the inner side opens a brilliant geranium scarlet, flushed and veined orange and yellow. The flowers are full, of nice form. The foliage is mildew proof. The habit is vigorous and upright. Certificate of Merit, N.R.S.

MARY GUTHRIE, H.T. (Alistair Clark).—A most distinct and striking single rose, of a new colour obtained by the use of a new Chinese species, which has imparted to it a shade of vivid pink that is most pleasing and unique. No rose bush could flower more freely, and every shoot is crowned with flowers—often well over 50 on a strong growth. Continuously in flower. This compact bush rose is sure to please.

MAUD CUMING, H.T. (A. Dickson).—A truly superb rose, with well-shaped blooms, carried on long, stiff stems. The colours are delicate peach, shaded with coral pink, suffused with veined orange, the base of the petals deep orange. The growth is vigorous, erect, and of free-branching habit.

MAY WETTERN, H.T. (A. Dickson).—An improved Made. A. Chatenay. The inner face of the petals evolves from bright salmon pink in the bud to deep flesh pink, then to pure light pink in the aged bloom. The outer side passes from deep rose to rosy pink, and, finally, to bright rose. The bloom is of moderate fullness, having immense, deep, wide petals of solid texture, their formation making a beautifully built, exceptionally long, high-pointed, conical flower. The growth is vigorous, forming an evenly balanced tree. It is of upright habit, carrying its blooms on very long stems. Fragrant. Gold Medal, N.R.S.

MCGREDY'S IVORY, H.T. (McGredy).—There are very few roses that possess a long spiral form in the bud stage, and large, well-formed fully developed flowers of thick petalage and good lasting qualities. Our well-known white variety, "Mrs. Herbert Stevens," when well grown, is one. This is a novelty that excels "Mrs. Herbert Stevens" at its best, without the latter's pendulous habit. The colour is a creamy white of soft and delicate tone that merges into a light yellow base. This rose is free and perpetual flowering, and good for garden or exhibition. The foliage is a very dark green. The blooms are borne erect on long, stout stems. It has a vigorous constitution. Awarded the Gold Medal of the N.R.S.

MEVROUW G. A. VAN ROSSEM, H.T. (Van Rossem).—The flowers are heavily flamed, and shaded dark orange and apricot on a dark golden yellow ground, the reverse of the petals often dark bronze and nearly brown when the blooms are in the first stage. Syn. with "Mrs. G. A. Van Rossem."

MIDNIGHT SUN, H.T. (Grant).—Deep glowing crimson, flushed with velvety black. Flowers semi-double, produced singly on long stems. Growth vigorous; foliage mildew-proof. The intense colour holds good till flowers fall. Very free blooming. Award of Merit by N.R.S. of New South Wales.

MILDRED GRANT, H.T. (A. Dickson).—Blossoms are of enormous size and substance, with high-pointed centre. Petals of unusual length and perfectly shaped. Colour ivory white, slightly tinged with rose. Gold Medal, N.R.S.

MISS BEP VAN ROSSEM, H.T. (van Rossem).—One of the very best, dark, canary-yellow roses yet raised. The bud is pointed. The flower, of medium size, is carried erect on strong stems. The colour does not fade when open. Not subject to mildew. Silver Medal, The Hague.

MISS CYNTHIA FORDE, H.T. (H. Dickson).—An ideal garden and exhibition flower. Colour is deep brilliant rose pink, shading on the back of petals light rosy pink. Flower large, perfectly formed. Foliage mildew-proof. Sweetly perfumed. Gold Medal, N.R.S.

MISS MARION MANIFOLD.—For description see Climbers.

MODESTY, H.T. (McGredy).—Petals of enormous size. Blossoms unusually long and pointed. Colour pearly cream, faintly flushed rose. Marvellously free blooming and sweetly scented. A faultless exhibition rose. Gold Medal, N.R.S.

MOLLY BLIGH, H.T. (A. Dickson).—Blossoms are large, ideal shape. Deep maddery pink, heavily zoned orange madder at base of petals. Exquisite musk rose perfume. Growth vigorous. Award of Merit, R.H.S.

MONTUNA, H.P. (Luke).—A Seedling from "Prince Camille de Rohan"; said to be an improvement on that variety, without its faults. The colour is intense crimson-maroon, with fragrance of its parent. Awarded Silver Medal for the best H.P.

MRS. ALBERT NASH, H.T. (Alister Clark).—This rose is, indeed, a real red that holds its colour. Most free, perpetual, and sweet, on upright stems of good length; the form is good, and slightly in-curved. The bush is well shaped and vigorous.

MRS. A. R. BARRACLOUGH, H.T. (McGredy).—Colour, bright, sparkling pink, shading to yellow at base. The colour does not fade, but seems to become brighter as the flower ages. The flowers are full, of huge size, fine substance and perfect form, petals being of very fine texture. The growth is vigorous, erect and branching. Foliage is mildew resistant. Fragrant. Gold Medal of N.R.S., Great Britain. An ideal rose for exhibition or garden.

MRS. A. R. WADDELL, H.T. (Pernet-Ducher).—Very long buds of reddish salmon tint. A wonderfully good grower, producing a large quantity of beautiful buds. One of the best.

MRS. BRYCE ALLAN, H.T. (A. Dickson).—Pure but strong moss-rose perfume. Colour is solid matte carmine rose. One of the most highly-perfumed roses. Gold Medal, N.R.S.

MRS. CHARLES RUSSELL, H.T. (Waban Conservatories).—Rosy carmine, with rosy scarlet centre; large, full, of fine form. Growth vigorous and free-branching. A fine exhibition rose.

MRS. C. V. HAWORTH, H.T. (A. Dickson).—As the bloom expands its colour is cinnamon apricot, developing into a delicate biscuit-buff, with cerise rose sheen on the reflex of shell-shaped petals,

J. Otto. Thilow, a reliable Pink Rose, good form and growth.

which are deeply-zoned saffron primrose. The Magnolia-like guard petals are flamed rose. Vigorous, erect, branching growth. Deliciously and highly-perfumed.

MRS. DAVID McKEE, H.T. (A. Dickson).—Flower large, great substance and splendid form. The petals are large, smooth, and circular. Colour a beautiful creamy yellow. Gold Medal, N.R.S.

MRS. ERSKINE PEMBROKE THOM, H.T. (Howard & Smith).—Long buds of good pointed shape, developing into perfectly formed, high-centred, fully double flowers of clear, deep canary yellow without a trace of shading, borne singly on long stems. Moderately fragrant. The plant is upright branching, with attractive foliage, resistant to disease.

MRS. FOLEY-HOBBS, T. (A. Dickson).—Growth is robust and vigorous. It is a giant among Teas. Colour delicate ivory white, faintly tinged clear pink on the edges of the petals. For exhibition purposes this rose stands without a rival. Deliciously tea perfumed.

MRS. FRANK GUTHRIE, H. Gig (Alister Clark).—This rose is descended from "Rosa Gigantea," and is a dwarf ever-blooming variety, forming a beautiful bush with most attractive foliage that is mildew-proof. Its flowers are of a most beautiful clear pink, and tea scented. As it flowers continuously right into Winter, it must become a great favourite for garden decoration and cutting.

MRS. F. R. PIERSON, H.T. (Pierson).—Habit excellent, abundant vigorous growth, flower very large and full. Colour, very bright cardinal-red; form, long pointed, exceptionally fine formation. Strong fragrance. Awarded three gold medals, one each at Cleveland, New York, and Massachusetts Horticultural Society.

MRS. G. A. VAN ROSSEM.—See Mevrouw G. A. Van Rossem.

MRS. GEO. SHAWYER, H.T. (Shawyer).—Brilliant clear rose. Flowers large, well formed, and fairly full; petals are of good substance, the growth tall and stiff.

MRS. HAROLD BROCKLEBANK, H.T. (A. Dickson).—Blossoms are large, full, perfect form, sweetly perfumed. Colour is creamy white, centre buff, base of petals soft golden yellow; outer petals frequently tinted salmon rose. Gold Medal, N.R.S.

MRS. H. MORSE, H.T. (McGredy).—The flower has a clear sheen of bright rose, deeply impregnated and washed vermilion, with clear vermilion veneerings on petals, which are wonderful for depth, size, and substance. A superb exhibition bloom, and a gem for garden or cut flower. Sweetly scented.

MRS. HENRY WINNET, H.T. (Dunlop).—A beautiful double red rose, not quite as dark as "Hadley." Good grower and free-flowering, holding its colour well. Mildew-proof and fragrant. A promising exhibition and garden variety.

MRS. HERBERT DOWSETT, P. (Easlea).—A deeper coloured "Los Angeles." A fixed sport that is a great improvement. Sure to command a big sale.

MRS. HUGH DETTMAN, H.T. (Alister Clark).—For description, see Climbers.

- MRS. HERBERT STEVENS, T. (McGredy).—Vigorous, free-branching growth. Large, full flowers, long and beautifully pointed. White, with distinct fawn and peach shading towards the edge of the petals. Very free, and fine for cutting.
- MRS. H. R. DARLINGTON, H.T. (McGredy).—An exhibition rose; very free and well formed; colour creamy yellow; sweetly scented, and of free growth. Gold Medal, N.R.S.
- MRS. J. HEATH, H.T. (McGredy).—In the young stage the buds and partly opened flowers are so beautifully shaded and splashed with crimson red, madder red, orange, and running off at the points of the petals into maize yellow, as to be absolutely indescribable. As the flowers expand the outer petals shade off into maize yellow, tinted peach red, whilst the centre remains deep cadmium yellow. The flowers are full, pointed, large, and beautifully shaped, and faintly scented. Growth is vigorous and branching.
- MRS. JOHN BELL, H.T. (Bell).—A vivid shade of cochineal carmine. The flower is full and shapely, and the colour is arresting and distinct. A grand variety for exhibition and bedding.
- MRS. MACKELLAR, H.T. (A. Dickson).—Its highly-pointed centre is deep citron or delicate pure canary; as the large blooms expand the guard petals reflex. A perfect exhibition or decorative bloom. Eastern fragrance.
- MRS. MOLONY, H.T. (McGredy).—Brilliant crimson carmine red, without any variation. The flowers are full; well formed, with beautiful reflexed petals, and of good size and fine substance, often large enough for exhibition. The foliage is mildew-proof, stems long and strong, holding flowers upright. The habit of growth is magnificent for garden and bedding. It is very perpetual flowering and also one of the sweetest roses we have ever grown.
- MRS. NORMAN WATSON, H.T. (Alister Clark).—For description, see Climbers.
- MRS. R. D. McCLURE, H.T. (H. Dickson).—Vigorous growth; large full flowers of exquisite form. Colour brilliant glistening salmon pink; free and constant. Gold Medal, N.R.S.
- MRS. REDFORD, H.T. (McGredy).—Bright apricot orange. A splendid upright grower with mildew-proof foliage. The bloom is solidly built, every petal gracefully reflexed, and perfect in shape. Very free-blooming and sweetly scented, opening its flowers freely in all weathers.
- MRS. SAM. MCGREDY, H.T. (McGredy).—The colour is quite distinct from a wonderful dual combination of vivid shades. A beautiful scarlet coppery orange is heavily flushed with lincoln red on the outside of the petals, and these colours together give a rich and almost dazzling effect. The flowers are of large size and beautiful form, and possess the proper fullness to make them useful for all purposes. They are freely produced and delicately perfumed. The foliage is mildew-proof, the stems are very long and not thorny, and the blooms erect. Habit vigorous. Certificate of Merit of the N.R.S.

Sunny South makes a Fine Hedge.

MRS. S. PATON, H.T. (McGredy).—Brilliant orange-scarlet-carmine, without any variation. The orange-scarlet is very pronounced. The flowers are full, fairly large, and of fine form.

MRS. S. W. BURGESS, H.T. (Burgess).—Fine shade of apricot yellow with deeper tones at base of petals. Nicely shaped full flowers. Very free. Tea scented. Good habit, vigorous growth. Strong, stiff, upright stems. Not subject to mildew.

MRS. THEODORE ROOSEVELT, H.T. (Hill).—Creamy white, with pink centre; large and full. Good.

MRS. W. C. EGAN, H.T. (Howard & Smith).—Flower of a two-tone pink in colour, reverse of petals is of a particularly pleasing tone of soft light pink, the interior is deep flesh, with golden line at base of petals; flowers very large, of good form. An extremely vigorous and healthy grower.

NELLIE PARKER, H.T. (H. Dickson).—Flowers large, very full, and most beautiful form. Colour pale creamy white with deeper centre, frequently charmingly flushed with blush at tips of the petals. Gold Medal, R.H.S., Ireland; Gold Medal, N.R.S.

NORMAN LAMBERT, H.T. (McGredy).—Outside of petals are deep buttercup yellow, and the inside deep salmon orange suffused bronze and yellow, fading to yellow at base of petals. Flowers are large, full and of perfect form, petals being of fine texture. Growth is bushy, blooms carried erect on stiff stems. Foliage mildew-proof. Fragrant. Awarded Gold Medal, N.R.S.

OLD GOLD, H.T. (McGredy).—Vivid reddish orange, with rich coppery red and apricot shadings. Continuous flowering, good grower, and mildew-proof, sweetly scented. Gold Medal, N.R.S.

OLIVER MEE, H.T. (S. Dickson).—The buds are very long and pointed, of exquisite shape which opens to large, full high-centred flowers of great distinction. The colour, in young state, is deep salmon, with flush of clear fawn, changing to deep salmon pink. Sweetly scented.

OPHELIA, H.T. (Paul).—Salmon flesh, shaded with rose, of perfect shape; the flowers on long, stiff stems. Growth vigorous.

PATIENCE, H.T. (McGredy).—The colour in young stage is scarlet carmine-lake. As the flower opens the colour is deep orange at base shading to orange scarlet. The flowers are large, full and of perfect form, and quite exhibition size, sweetly perfumed. Habit, strong and erect. Gold Medal, N.R.S.

PERFUME, H.T. (Marriott).—Very deep fiery velvety crimson. The buds are long and pointed, and the half-open flowers are of extra good shape and size. The fully expanded flower is very beautiful. Fragrance is extra strong. Habit is vigorous and branching. Exceptionally free flowering. An ideal bedding rose, also fine as a standard. Awards: The "Abol" Challenge Cup for scented roses; Certificate of Merit, N.R.S.; Certificate of Merit, R.H.S.

PHOEBE, H.T. (Cant).—Creamy white, slightly deeper in the centre, occasionally almost pure white; large, full, and beautifully formed flowers, with nicely reflexed petals; always a good quality flower.

PINK PEARL, H.T. (Leenders).—Deep rose pink, with salmon base. Handsome, sweetly scented, full flowers. Growth vigorous and free branching.

POLLY, H.T. (Beckwith).—The buds are gold, flushed with pink. The open flower is a charming blend of cream, pale rose pink, and gold. The heavy gold base comes well up the petals. Perfect shape. Very sweetly scented. Very free flowering. Handsome foliage. Not liable to mildew; vigorous, hardy. A really good decorative garden rose.

PORTADOWN BEDDER, H.T. (McGredy).—The petals are orange-yellow on the outside, with a rich cerise flush that deepens towards the edge, and inside there is a suffusion of glowing scarlet cerise on an orange ground. The blooms are of moderate size, good form, and thick texture, and are fragrant. An ideal decorative rose, mildew-proof foliage, strong stems.

PORTADOWN, H.T. (McGredy).—A rich, deep crimson rose, with a velvety sheen. Blooms large, full, and beautifully formed. Very free flowering. Certificate of Merit.

PRINCE CAMILLE DE ROHAN, H.P. (Verdier).—Crimson maroon, shaded with blood-red; rich and velvety; large, full; one of the best dark crimsons in cultivation.

PRINCESS ELIZABETH OF GREECE, H.T. (Chaplin).—A very fine novelty. The colour is best described as orange yellow, overlaid with orange lake. The expanded flowers are very beautiful. Habit, strong and erect. Certificate of Merit, N.R.S.

PRINCESS MARIE JOSE, H.T. (Klattenberg).—Fine full flowers. Long buds that open well. Orange vermilion on cadmium yellow ground. The high centre is slightly darker. Good habit. Vigorous. Gold Medal.

PRINCESS M. VON ARENBERG, H.T. (Leenders).—Flowers very large, full and excellent form. Colour, rosy white, shaded pale rose pink. The growth is vigorous, erect, very free, and continuous in bloom. The flowers, which are sweetly scented, are carried on rigid stems. A beautiful rose.

RADIANCE, H.T. (Cook).—Carmine pink, opening to well-formed globular flowers with lighter tints on reverse of petals. Very fragrant. Growth very strong, with fine foliage.

RAPTURE, H.T. (Schenck).—It is of very fine colour indeed, and certainly the best of all "Ophelia" sports. It is a big improvement on "Madame Butterfly." It is intensely vivid in colour, bright apricot, coral pink, rose and gold. Has more petals than "Ophelia." Has been awarded two Gold Medals in America.

RED LETTER DAY, H.T. (A. Dickson).—Semi-double rose of infinite grace and charm. Its velvety brilliant glowing scarlet crimson buds and fully-opened cactus-like flowers never fade, as the reflex of the petals is satiny crimson scarlet. Gold Medal, N.R.S.

RED RADIANCE, H.T. (Gude).—Cerise red, a genuine sport from "Radiance," possessing all the fine qualities of that popular variety.

REV. F. PAGE ROBERTS, H.T. (Cant).—Rich yellow stained in the bud and outside of blooms with buff markings. Large, sweetly perfumed, well-formed blooms. A vigorous yellow rose of strong upright growth, with healthy foliage. Gold Medal, N.R.S.

Mrs. Henry Winnet. A Red Rose of special merit and form.

RHEA REID, H.T. (Hill).—Cerise red, blooms freely produced, large, full, and of good shape. Sweetly perfumed. A good garden rose.

ROSE BERKLEY, H.T. (McGredy).—Deep rosy salmon pink, suffused orange running to an orange base. Flowers large, full, and well formed, with high-pointed centre of exhibition size, and quality. A fine garden, bedding, and exhibition rose. Certificate of Merit.

ROSELANDIA, H.T. (Stevens).—An unusual sport from the well-known variety "Golden Ophelia." The colour is much deeper and richer, and the shape of the flower is quite different from its parent, being much larger and longer in the petal. Opens well. Exceedingly free flowering. Very vigorous. Fruity tea perfume.

ROSE MARIE, H.T. (Dorner).—Long buds, of perfect shape, opening to full flowers of an even shade of rose-pink. Free-flowering and of good growth, with wonderful fragrance.

ROSY MORN (Alister Clark).—A beautiful decorative rose of a unique shade of clear pink on a white ground. It does not burn in the sun. Makes a good pillar or bush; is a good grower.

ROYAL RED, H.T. (Hill).—A giant red rose. In the bud and half-open stage the colouring is magnificent. Scarlet red, with almost black shading. The fully expanded flower is of great size, but lighter in colour. Flowers very full. We imagine it will be at its best in a hot summer. Free flowering. Good large buds. Sweetly scented. A grand habit.

SALLIE LEWIS, H.T.—Apricot, shaded creamy white. Full and free; flower perfect shape, and good habit.

SCOTT'S COLUMBIA (Scott).—A sport of "Columbia." Pure rose pink of delightful brilliance. Undoubtedly much the best sport of "Columbia," possessing all its valuable qualities.

SENSATION, H.T. (Hill).—An entrancing shade of rich velvet crimson red, shaded deeper crimson, quite distinct from any other dark red rose. The bud is long and pointed, and the double open flower of extreme size, and exceedingly beautiful. The flowers are freely produced. Very sweetly scented. Very vigorous. Strong stems. Gold Medal, American Rose Society.

SHOT SILK, H.T. (A. Dickson).—The colourings of this beautiful rose are very difficult to portray; they may be described as bright cherry-cerise, over-shot with salmon-orange, flushed rose, and a deeply-veined, clear, buttercup-yellow base. The growth is vigorous and free-branching, with beautiful glossy cedar-green foliage. Immune from mildew. It is very continuous and free-blooming. Strong Otto of Rose perfume. Awarded Gold Medal, N.R.S.

SIR DAVID DAVIS, H.T. (McGredy).—Colour unfading, deep, glowing crimson, of an even shade throughout, running to a light yellow at the base. Flowers are large, moderately full, and of good form. Growth is extra vigorous.

SOUV. DE CLAUDIUS PERNET, P. (Pernet-Ducher).—Sunflower yellow colour, deeper in centre, large and full, beautifully formed, carried on stiff stem, immune from all diseases. Awarded the Gold Medal at the Rosearie de Bagatelle (Paris), also Gold Medal of the National Horticultural Society of France.

- SOUV. DE GEORGES PERNET, H.T. (Pernet-Ducher).—**A vigorous grower, of branching habit, oval bud carried on erect stem, very large globular flower, beautiful Orient red colour, the end of petals cochineal carmine, all the flower shaded with yellow. Awarded Gold Medal, Bagatelle, June, 1921.
- SOUVENIR DE H. A. VERSCHUREN, H.T. (Verschuren).—**Cadmium yellow, passing to orange yellow, very large, fairly full, of exquisite form and finish, borne singly on rigid flower stalks, growth similar to "Sunburst," but much thicker, larger, and stronger. Strongly perfumed.
- SOUVENIR DE MARIA DE ZAYAS, H.T. (Soupert).—**Blooms very large and perfectly formed; buds long and pointed. Colour vivid carmine, with deeper shading.
- SOUV. DE PIERRE GUILLOT, P. (Guillot).—**Large full flowers of fine shape. In the early stages the colour is orange-yellow, edged with coral, and as the flower expands the coral predominates. Sweetly scented. Vigorous. Free flowering.
- SOUV. DE SERGENT CRETTE, H.T. (Chambard).—**Very vigorous, superb long bud, rigid peduncle, flowers very large, colour dark yellow, suffused shade of carmine; always flowering.
- SOUVENIR OF STELLA GRAY, T. (A. Dickson).—**Flowers of medium size, very full, perfectly formed and most freely produced. Colour deep orange, with splashes or veination of yellow, apricot, salmon, and crimson. The growth is very free.
- SOVEREIGN (Cant).—**Strong, bushy growth, free from mildew; flowers of medium size, freely produced, of deep metallic yellow in the bud, opening to deep golden yellow. A fine rose for bedding and massing.
- SQUATTER'S DREAM, H. Gig. (Alister Clark).—**This ever-blooming rose possesses leathery dark green leaves that are mildew and disease proof. The colour is between saffron and Indian yellow. The flowers are well held on the plant and are excellent for cutting.
- SUNBURST, H.T. (Pernet-Ducher).—**Vigorous grower, long-pointed bud. Flower large, fairly full and of nice elongated form. Colour cadmium yellow, with yellow-orange centre.
- SUNNY SOUTH, H.T. (Alister Clark).—**Vigorous growth, handsome foliage, strong constitution and good habit. Colour pink flushed with carmine on a yellow base; a most distinct and charming combination hitherto unknown in any rose. It has also been well tried at "Glenera," and has proved most suitable to the Australian climate, flowering throughout the season. Gold Medal, N.R.S.V.
- SUNSTAR, H.T. (A. Dickson).—**The many phases of colour depicted in the development of this truly sensational rose are almost too intricate to describe, including deep orange and yellow, edged, veined, and splashed crimson and vermilion, all colours that attract and delight, and vary in tone and intensity as the bloom develops; the growth is vigorous, erect, and branching, flowering in great profusion; buds long and elegant; very highly honey perfumed. Awarded Gold Medal, N.R.S.

Lady Somers, a Bedding Rose of great merit.

SWANSDOWN, H.T. (A. Dickson).—Colour, white; shading of cream at base during autumn. Bud, large, long pointed. Bloom, full, beautiful spiral formation. Petals stout, very large, long, and deep. Fragrance very sweet. Growth vigorous. Habit, very free branching, making fine well-balanced bush. Blooming exceptionally free and continuous. Free from disease. Awards: Certificate of Merit, N.R.S.; Award of Merit, R.H.S.; Award of Merit, R.A.S.

TALISMAN (Montgomery).—A very fine and attractive novelty that is quite distinct. Scarlet, pink, copper, and gold are all to be found in the glorious shadings. Splendid vigorous habit and growth. Free flowering. Fine flowers and buds (average 25 petals). Large leathery foliage.

THE QUEEN ALEXANDRIA, H.T. (McGredy).—Intense vermilion, deeply shaded old gold on reverse of petals; a remarkable and pleasing colour combination. Mildew-proof foliage. Flowers of fair size, freely produced. Gold Medal, N.R.S.

UNA WALLACE, H.T. (McGredy).—Beautiful soft-toned cherry rose without shading. In depth, formation, and substance it is faultless. Very free blooming. Sweetly perfumed. Gold Medal, N.R.S.

VILLE DE PARIS, H.T. (Pernet-Ducher).—A very vigorous grower, erect branching habit. Oval bud, large, full flower, colour of a yellow sunflower, lightly shaded with orange, deeper in the centre and at the base. This wonderful variety is absolutely hardy, and its beautiful foliage is free from all diseases. The yellow colour does not vary. Award the Bagatelle Gold Medal.

VILLA PIA, H.T. (Leenders).—Colour is deep velvety red, shaded with black red. The bud is long, large and pointed. Very sweetly scented. The open flower is large and full, with broad petals.

W. A. BILNEY, H.T. (Easlea).—A rose with wonderful rainbow tints. The colour is pale apricot, the back of petals primrose. The outer petals are tinted and edged with crushed strawberry. The petals are enormous and the fully expanded flowers resemble a large Paeony. Good habit.

WARRIOR, H.T. (Paul).—Buds blood-red, long, and handsome. Opening flowers vivid scarlet crimson; large, double, with broad, handsome petals as the blooms expand.

W. F. DREER, P. (Howard & Smith).—Deep golden yellow, heavily shaded peach and old rose. Good variety, of splendid growth and very free flowering.

WHITE ENSIGN, H.T. (McGredy).—The colour is pure white, flushed delicate cream at very base of petals. Flowers are medium sized, full, and well shaped, of good petalage and substance, carried perfectly upright on long stems. The foliage is mildew-proof. The growth is strong and upright. Faint tea perfume. Certificate of Merit, N.R.S.

WHITE MAMAN COCHET, T. (Cook).—The parent of this rose has won universal favour, and is now considered indispensable even in a limited collection. The importance of this sport is said to equal in white what its parent does in pink.

J. Otto. Thilow, a reliable Pink Rose, good form and growth.

WILHELM KORDES (Kordes).—Capucine red on golden yellow ground, gradually toning to golden yellow, striped with red when expanding fairly full, of good form, carried on stiff stems. Fruit scent.

WILLIAM SHEAN, H.T. (A. Dickson).—A glorious rose of unquestionable merit, having immense size, perfect form and substance. Its colour is the purest pink, with delicate ochrey veination. It has shell-like petals four to five inches long. Gold Medal, N.R.S.

YELLOW LOS ANGELES, H.T. (Mount).—A fine new yellow sport from this old favourite.

YVONNE VACHEROT, H.T. (Soupert).—Buds long, pointed, of perfect form. Flowers large and double, porcelain white, suffused delicate soft pink; free flowering. Good for exhibition. Gold Medal, Liege.

Climbing Roses

ABBREVIATIONS.

H.P., Hybrid Perpetual. T.S., Tea Scented. N., Noisette. S., Single Flowered. H.T., Hybrid Tea. W., Wichuriana. H. Gig., Hybrid Rosea Gigantea. P., Pernetiana.

Price—1/3 each; 6 or more 12/- per dozen.

ACHIEVEMENT, W. (English).—An entirely new break in climbing roses. The foliage is variegated, and is as ornamental as a Japanese Maple. Flowers are deep rose pink, shaded coral, and freely produced.

ALLEN CHANDLER (Prince).—A most effective pillar rose. Vivid scarlet; fine size. Very free flowering. Gold Medal, N.R.S., also Corry Cup.

AMERICAN PILLAR, W. (Conrad).—Flowers single. Rich pink with a well-defined white eye and yellow stamens. Very showy.

AUGUSTA KORDES.—See page 18.

AUSTRALIAN BEAUTY, H.T. (Kerslake).—Rich crimson, shaded velvety amaranth. Deliciously perfumed; good foliage.

AVIATEUR BLERiot, W. (Fague).—Saffron yellow, centre golden yellow; full, medium size. Flowering in clusters.

BANKSIAN WHITE (Kerr).—Very sweet, blooming in clusters. A good pillar rose.

BANKSIAN YELLOW (Damper).—Small, but very beautiful. Very useful for training up verandahs.

BARDOU JOB, H.T. (Nabonnand).—Bright, glowing crimson, shaded with black; semi-double. A distinct and striking rose.

BLACK BOY, H.T. (Alister Clark).—The darkest climbing rose yet offered. The bud is well shaped, and the flower most attractive. Colour is a deep crimson, shaded with blackish maroon overlaying fiery scarlet. Good foliage, which is mildew-proof.

BREEZE HILL, HYB. WICH. (Van Fleet).—It is peculiar among climbing roses in the enormous size of its individual flowers, in their production of immense clusters, and their colour. The colour is deep cream with tints of pink and salmon.

- BUSH FIRE, W. (Alister Clark).**—The colour is bright crimson, with a narrow yellow zone around the centre of each flower. The trusses are of enormous size.
- CLIMBING ANNIE BURGESS, H.T. (Burgess).**—Colour, charming pale pink. Flowers large, single, with thick petals. Produced in corymbs. Vigorous shoots, 12 feet long.
- CLIMBING BELLE SIEBRECHT, H.T. (Paul).**—A climbing form of the well-known "Belle Siebrecht." Bright rosy pink, large, full and beautifully formed. Free-flowering and sweetly scented.
- CLIMBING BETTY, H.T. (Hohman).**—Coppery rose shaded yellow. A grand climbing sport of this popular old variety.
- CLIMBING CAROLINE TESTOUT, H.T. (Chanvry).**—A strong climbing sport from the well-known dwarf variety of the same name. Colour is clear bright rose, large and double.
- CLIMBING CECILE BRUNNER.**—See page 18.
- CLIMBING CHATEAU DE CLOS VOUGEOT, H.T. (Morse).**—A most valuable climbing form of this very distinct and esteemed variety. Colour is velvety scarlet, shaded with fiery red.
- CLIMBING COLUMBIA, H.T. (Totty).**—A vigorous climbing sport of this popular variety, with fragrance and lasting qualities of its parent. Colour, rose pink.
- CLIMBING DEAN HOLE, H.T.**—A vigorous climbing sport of the well-known dwarf variety. The colour is silvery carmine, shaded in salmon.
- CLIMBING DEVONIENSIS, T. (Gavitt).**—Climbing sport of Devonensis. Colour, pale yellow; very large and full. Sweetly scented.
- CLIMBING FRAU. KARL DRUSCHKI, H.P. (Laurenson).**—Pure white, like the normal type. It ought to prove the best white climber.
- CLIMBING GENERAL McARTHUR, H.T. (H. Dickson).**—A strong climbing sport of this popular variety. Colour bright scarlet, large full and scented.
- CLIMBING GEORGES SCHWARTZ, T. (Knight).**—A climbing sport from Georges Schwartz. Colour, bright canary yellow.
- CLIMBING GOLDEN EMBLEM, P. (Armstrong).**—A vigorous climbing sport from the dwarf, which will be a most decided acquisition. Colour, cadmium yellow; buds reddish gold. Fruit scent. Every plant has so far proved to be of climbing habit.
- CLIMBING GOLDEN OPHELIA, H.T. (Hage).**—A climbing sport of the popular yellow variety.
- CLIMBING HADLEY, H.T. (Teschendorf).**—A strong climbing sport from Hadley. Colour, dark red.
- CLIMBING HOOSIER BEAUTY, H.T. (Western Rose Co.).**—A vigorous climbing sport of the popular dwarf of this name. It is identical as regards its rich crimson bloom, and being mildew-proof and deliciously fragrant, it is sure of a high place amongst climbers.
- CLIMBING IRISH FIREFLAME, H.T. (A. Dickson).**—A climbing sport from the dwarf variety. Colour is deep maddery orange, splashed with crimson. Perfumed.
- CLIMBING JONKHEER J. L. MOCK, H.T. (Timmermans).**—A climbing sport of the dwarf variety, producing imperial pink flowers, identical with the parent.

CLIMBING LADY ASHTOWN, H.T. (Bradley).—Climbing sport of Lady Ashtown. Colour is rich silvery pink.

CLIMBING LADY GREENALL, H. T. (Lippiatt).—A strong climbing sport from Lady Greenall, identical in habit, and colour, which is saffron orange overspread on creamy white.

CLIMBING LADY HILLINGDON, H.T. (Hick's).—A vigorous climbing sport from the well-known dwarf variety. Long buds of a deep orange yellow colour.

CLIMBING LAURENT CARLE, H.T. (Rosen).—Brilliant velvety carmine, large and double. A strong climbing variety of this popular rose.

CLIMBING LOS ANGELES, H.T. (Howard & Smith).—A climbing sport of this popular rose. Colour is salmon pink shaded with translucent gold; sweetly scented.

CLIMBING LYON ROSE, H.T. (Ketten).—A fixed climbing sport of this well-known rose. Colour is shrimp pink shaded with salmon; sweetly scented.

CLIMBING MADAME ABEL CHATENAY, H.T. (Easlea).—A true climbing sport of this popular rose. Colour is carmine pink, shaded vermilion and salmon.

CLIMBING MADAME BUTTERFLY, H.T. (Smith).—A strong climbing sport of this variety. Colour, salmon flesh, shaded rose, with apricot and gold base. Blooms beautifully shaped and richly perfumed.

CLIMBING MADAME EDOUARD HERRIOT, P. (Ketton).—A vigorous climbing sport of this justly esteemed rose, flowering in great profusion. Colour, coral red.

CLIMBING MADAME SEGOND WEBER, H.T. (Ardagh).—A strong climbing sport, producing enormous flowers of rosy salmon.

CLIMBING MAMAN COCHET, T. (Upton).—Strong climbing sport from Maman Cochet. Producing fine long buds of flesh-coloured rose.

CLIMBING MRS. AARON WARD, H.T. (A. Dickson).—Indian yellow, shaded with almost salmon rose; very large and full. A strong climber of remarkable vigour.

CLIMBING MRS. GEO. SHAWYER, H.T.—A genuine vigorous climbing sport of this invaluable pink variety.

CLIMBING MRS. HENRY MORSE, H.T. (Chaplin).—A strong climbing sport from the dwarf variety, producing sweetly scented blooms of bright rose, impregnated vermilion.

CLIMBING MRS. HERBERT STEVENS, H.T. (Pernet-Ducher).—A very vigorous sport from "Mrs. Herbert Stevens." Large, full, snow-white flowers.

CLIMBING OPHELIA, H.T. (A. Dickson).—Strong climbing sport of the popular dwarf variety, producing blooms of salmon flesh shaded with rose, of perfect shape.

CLIMBING ORLEANS ROSE.—See page 18.

Climb. Golden Emblem, the best yellow climber yet introduced.

CLIMBING PAPA GONTIER, T. (Cherrier).—A climbing form of the well-known "Papa Gontier." Colour, rosy crimson; buds very long.

CLIMBING RADIANCE, H.T. (Griffing).—A very reliable climbing sport from the well-known variety, "Radiance." Colour, brilliant carmine shaded salmon and coppery red.

CLIMBING RED RADIANCE, H.T. (Pacific Rose Co.).—A vigorous climbing sport of "Red Radiance," producing blooms of cerise red.

CLIMBING RICHMOND, H.T. (A. Dickson).—A climbing sport of "Richmond." Colour, pure red scarlet.

CLIMBING ROSE MARIE, H.T. (Pacific Rose Co.).—A fine climbing sport of this very popular pink rose.

CLIMBING SOUV. DE CLAUDIUS PERNET, P. (Western Rose Co.).—This valuable climbing sport will be extremely welcome, as it provides a new break in climbing varieties. The double rich sunflower yellow blooms are in a class by themselves, and will provide a gay show.

CLIMBING SOUV. DE GEORGES PERNET (Pernet-Ducher).—A climbing sport of vigorous growth and very free-flowering character. Colour is Orient red.

CLIMBING SUNBURST, H.T.—A strong, vigorous climbing sport from this most popular yellow rose. A decided acquisition.

CLIMBING SUNSTAR, H.T.—A climbing sport from Sunstar. Orange and yellow edged, veined and splashed with vermilion. Very free flowering and sweetly perfumed. A moderate climber, very suitable for pillars.

CLIMBING WHITE MAMAN COCHET, T.—A strong climbing sport of that very popular white variety.

CLIMBING WILLIAM KORDES, H.T. (Wood & Ingram).—A grand climbing form of this very popular rose. Colour is Capucine red on golden yellow ground.

CHERUB, H.T. (Alister Clark).—A climbing rose with good foliage and habit, that in Spring is a mass of beautiful salmon pink flowers, gracefully displayed. It also flowers in Autumn, when the colouring is superb, making this variety one of the most distinct of its popular class.

CLOTH OF GOLD, N. (Coquereau).—Pale yellow, with deep centre. Large and very vigorous.

CORONATION, W. (Turner).—Bright crimson, shaded scarlet, splashed with small white streaks. Flowers double and freely produced in large trusses.

COUNTESS OF STRADBROKE, H.T. (Alister Clark).—A vigorous growing, free-blooming climbing rose of exceptional merit, and worthy in every respect of a position beside varieties like Black Boy and Miss Marion Manifold. The flowers are large, full (averaging 40 petals), and of good shape, while in addition they possess a full, rich fragrance of the sweet or damask type. The colour is a rich, dark, velvety crimson of a particularly vivid shade, and this brilliancy is maintained for a long period.

COURIER, H. Gig. (Alister Clark).—A very early and extremely vigorous climbing rose, carrying quantities of bloom in spring, and its beautiful healthy foliage is practically evergreen. The flower is stately, with a fine bud, and the colour a pleasing shade of pink on a white ground. This variety should not be pruned too much, as it blooms from the old wood.

CRACKER (Alister Clark).—A vigorous pillar rose, also good as a large bush. The foliage is mildew-proof, and it is constantly in flower. Colour is a striking red, and the stamens are handsome and ample. Flower is well shaped, single, and is most effective when cut and opened in water.

CRIMSON RAMBLER, W. (Turner).—The flowers are small, bright crimson coloured, and produced freely in large bunches.

DAYDREAM (Alister Clark).—This rose has good foliage and vigour, with most beautiful flowers, resembling large water lilies of blush-pink shading. It is quite distinct and lasts well when cut and is of the semi-double class that, in Europe and America, is the most popular of all.

DEBUTANTE, W. (Walsh).—Large clusters of soft double pink flowers. Very fragrant.

DOROTHY PERKINS, W. (Perkins).—Colour soft light pink; flowering profusely in large clusters. Very fragrant and lasting.

DR. MITTENY.—See page 18.

ELLA SCOTT, W. (Scott).—A strong grower, with mildew-proof foliage. The flowers are produced in large trusses of fifteen to twenty flowers. The colour is deep rosy pink, approaching red. Awarded Certificate of Merit, N.R.S.V.

EXCELSA, W. (Walsh).—Brilliant scarlet crimson; full. Produced in large trusses. One of the best.

FLYING COLOURS, H. Gig. (Alister Clark).—It is a vigorous climber, producing extra large single flowers fully 5 inches across, of a bright deep cerise. Flying Colours is one of the first varieties to bloom, and when in full flower is a glorious sight.

FORTUNE'S YELLOW, N. (Fortune).—Yellow, shaded with bronze.

FORTUNIANA (Fortune).—White, large, and sweet. A good climber.

GOLDEN VISION, H.T. (Alister Clark).—A distinct break in climbing roses, with wreaths of bright green foliage that should carry it into all gardens, apart from its pretty golden-yellow flowers, that are borne in greatest quantity in the flush of spring. It is mildew-proof, and a good grower and quite distinct. In winter its healthy foliage makes it a striking object, as it is practically evergreen. It is a seedling from "Marechal Neil," and carries some of the colour and scent of the old rose, with the merit of being suited to the climate.

GRUSS AN TEPLITZ, H.T. (Geschwind).—Brilliant cinnabar scarlet, shaded fiery red.

HARBINGER, H. Gig. (Alister Clark).—In this rose we have an early spring flowering climber of good habit, and just what is required to fill the bleak days of very early spring. When covered with its very large single flowers of pure refined pink it brightens the garden when the daffodils are still in flower.

HIAWATHA, W. (Walsh).—Single, rich crimson, with white eye. Produced in large clusters.

JESSIE CLARK, H. Gig. (Alister Clark).—The colour is a much clearer pink than "Sinica Anemone." The blooms are twice the size, and more like a very large Clematis.

JOYCE FAIREY, H.T. (Alister Clark).—A very strong bush or pillar rose, of vivid red that does not fade. The foliage is healthy and ample, and the flowers are scented. A fine companion to Paul's Scarlet, but the flowers are much larger, sweeter, and of a softer tone, and continues to appear.

KITTY KININMONTH, H.T. (Alister Clark).—A brilliant climbing rose, producing huge decorative flowers, which are of a bright carmine-rose colour. This rose has enormous petals and is perfectly even in colour. The flowers are produced all over the plant on splendid stiff stems, which show them off to great advantage.

LADY GAY, W. (Walsh).—Deep rich rose colour, resembling "Dorothy Perkins."

LADY MEDALLIST, H.T. (Alister Clark).—A vigorous climbing rose, carrying large, full, perfect flowers, after the style of "La France." Petals are pointed and centre high. Colour is "La France" pink, with lighter shading on reverse. Foliage dark green. Award of Merit, N.R.S.

LADY WATERLOW, H.T. (Nabonnand).—Clear salmon pink, with large crimson-edged petals. Flowers large and very freely produced.

LEMON PILLAR, H.T. (Paul).—Pale lemon in bud, opening to sulphur yellow. Growth vigorous.

LORETTO, H.T. (Alister Clark).—A climbing or pillar rose of most distinct and beautiful colouring suggesting crimson overlaid with carmine. The foliage is magnificent and disease-proof, and the flower is sweetly scented and large for its class. It is at its best in spring, but flowers well in autumn.

MADAME JULES GRAVEREAUX, T. (Soupert & Notting).—Deep yellow, centre rosy peach; buds long and pointed. Very beautiful and distinct.

MADAME MARTIGNIER, T.—Amaranth red, with chamois yellow edges. Free and very sweet. A first-class climber.

MARECHAL NIEL, N. (Pradel).—Deep golden yellow. Large, full, and sweetly scented. Vigorous habit. Beautiful climber.

MERMAID, Hyb. of *Rosa Bracteata* (Paul).—Flowers sulphur yellow, the deep amber stamens standing out prominently and throwing a rich shade of yellow over the whole of the blossom; of great size and single, produced continuously from early summer till late in autumn. Growth, climbing; the foliage is most effective. A very distinct and charming acquisition to the single-flowered roses; it is well suited for growing on walls, trellises and pillars.

MILKMAID (Alister Clark).—A very vigorous climbing rose, with good foliage and habit. In spring it carries large trusses of creamy yellow flowers, having a strong perfume, and sets quantities of seed pods in winter.

MISS MARION MANIFOLD, H.T. (Adamson).—Rich velvety scarlet, shaded crimson. Flowers large, full, and good form. Free and continuous bloomer. Opens well in all weather. Light Bourbon scented.

MRS. HUGH DETTMAN, H.T. (Alister Clark).—A pillar rose of great refinement and taking colour, being a bright apricot yellow that opens well, and is particularly healthy and attractive.

MRS. NORMAN WATSON, H.T. (Alister Clark).—This beautiful rose is most decorative and effective. The flowers are extra large; colour, deep cherry pink. It makes a showy pillar, or can be kept as a large bush, and should make a fine standard.

MRS. PHILLIP RUSSELL, H.T. (Alister Clark).—This rose is a vigorous grower with mildew-proof foliage. The colour is dark red, as dark as any rose grown, and the colour does not fade.

NOELLA NABONNAND, H.T. (Nabonnand).—Extra large, semi-double, velvety crimson flowers, with large petals.

NORA POWER, H.T. (Dearing).—Certificate of Merit, N.R.S., Victoria, and Victorian Horticultural Society. Of very strong climbing habit. The colour of the flower is a very deep apricot, shaded with red in the bud, opening to a light buff tinged with peach as the flower opens. The flowers are single, blooming from the end of August till October.

PAUL'S SCARLET CLIMBER, W. (Paul).—Vivid scarlet, shaded with crimson. Plant makes a brilliant display in the garden. Gold Medal, N.R.S.

QUEEN OF HEARTS, H.T. (Alister Clark).—An entirely new, lovely climbing rose of a beautiful pink shade and continuously in flower. Its sweet scent, beautiful pure colour, and lovely foliage making it one of the most valuable climbers yet sent out.

REFRESHER, Rambler (Alister Clark).—This rose carries large trusses of the most beautiful single white flowers, that completely cover the whole plant in early summer. The foliage is luxuriant and healthy. The growth is wonderfully vigorous, and the whole plant suggests a "White American Pillar," to which is a fine companion for fences or pillars.

RINGLET.—This everblooming, vigorous rose, having a fine constitution and foliage free from disease, will be found to fill a want, especially during autumn and winter, when the distinct pink amaranth colour on the margin of its single white-centred flowers is at its best. Being a healthy, vigorous grower, it will succeed as a climber, pillar, or large bush rose. The most vigorous shoots carry trusses of from twenty to fifty flowers.

ROBIN HOOD.—See page 18.

ROSABEL WALKER (H.T.).—Brilliant scarlet, shaded velvety crimson, with splashes of yellow at base of petals, growth vigorous and free flowering, of considerable substance, distinctly fragrant, suitable for pillars, etc. Awarded the Certificate of Merit, N.R.S., and Award of Merit, R.H.S.

Climb. Golden Emblem, the best yellow climber yet introduced.

ROYAL SCARLET, H.T. (Chaplin).—Coming from the same nursery as "Paul's Scarlet Climber," and being related to it, gives promise of something extra good. The colour is a shade deeper than "Scarlet Climber," and the glorious flowers are very beautiful indeed.

RUBY RING, W. (Alister Clark).—A vigorous climbing rose. It flowers in elegant sprays, and is very decorative. Centre is white, with well-defined ruby edge.

SCORCHER, H.T. (Alister Clark).—A climbing rose, unique in colour, and of decorative type. The flowers, which are freely produced, may perhaps be best described as being of a true crimson-carmine colour. This rose is of an unusually brilliant flaming colour. It is a magnificent grower, with beautiful rich green foliage, which is absolutely mildew-proof.

SILVER MOON (Van Fleet).—Extra large single flowers, silvery-white. Very vigorous climber.

SINICA ALBA, S.—A beautiful evergreen climber, with large, single flowers. Pure white. A strong grower.

SINICA ANEMONE, S. (Schmidt).—A very beautiful single-flowering rose, with large flowers $3\frac{1}{2}$ inches across. Colour light silvery pink at edges, gradually deepening to bright rose at the base.

SINICA LAEVIGATA.—Large white flowers, bright shining foliage. Similar to "Sinica Alba," but twice the size.

SOUV. DE CLAUDE DENOYEL, H.T.—Vigorous climbing growth, upright and branching; flowers of enormous size and pointed form with large massive petals. Colour rich glistening crimson shaded vermillion quite to exhibition standard; sweetly scented. Probably the best red climbing rose yet introduced.

SOUVENIR DE LEONIE VIENNOT, T. (Bernaix).—One of the most beautiful climbing roses; strong for even a climbing rose; silvery rose shading to carmine, base of petals canary yellow.

STEIL RAMBLER.—See page 18.

TAUSENDSCHON.—See page 18.

TONNER'S FANCY (Alister Clark).—The buds are full and of a delicate cream shade, turning to pink in the centre. The shapely blooms are produced on long, stout, stems, which is a valuable acquisition where flowers for cutting are desired. Its growth is vigorous, and the bright green foliage has proved to be mildew-proof.

TRAVERSER, H.T. (Alister Clark).—A magnificent climbing rose in stature, bloom, and foliage. No rose is more vigorous, and it shows its descent from "Rosa Gigantea" by its freedom from disease. The yellow and cream flowers are shapely and profuse in spring, when the plant is a sheet of bloom.

VEILCHENBLAU, W. (Schmidt).—Seedling from "Crimson Rambler"; lilac to bluish-purple; blooms produced in trusses.

WALTER C. CLARKE (H.T.).—The finest dark red, climbing rose, deep maroon-crimson, very fragrant, free-flowering.

WHITE DOROTHY (Cant).—A pure white sport of the well-known "Dorothy Perkins." Gold Medal, N.R.S.

WILLIAM ALLEN RICHARDSON, N. (Ducher).—Orange yellow; medium size; vigorous growth; flowers full; beautiful.
